To amend sections 307.37 and 711.131 and to repeal 1
section 4740.14 of the Revised Code to permit 2
counties to include regulations in their building 3
codes to protect existing surface and subsurface 4
drainage, and to eliminate the Residential 5
Construction Advisory Committee. 6

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:

Section 1. That sections 307.37 and 711.131 of the Revised 7
Code be amended to read as follows: 8

Sec. 307.37. (A)~~(1)~~ As used in this section, "proposed new 9
construction" means a proposal to erect, construct, repair, alter, 10
redevelop, or maintain a single-family, two-family, or 11
three-family dwelling or any structure that is regulated by the 12
Ohio building code. 13

(B)(1) The board of county commissioners, in addition to its 14

other powers, may adopt, amend, rescind, administer, and enforce 15
regulations pertaining to the erection, construction, repair, 16
alteration, redevelopment, and maintenance of single-family, 17
two-family, and three-family dwellings within the unincorporated 18
territory of the county, or the board may establish districts in 19
any part of the unincorporated territory and may adopt, amend, 20
rescind, administer, and enforce such regulations in the 21
districts. When adopted, all regulations, including service 22
charges, shall be uniform within all districts in which building 23
codes are established; however, more stringent regulations may be 24
imposed in flood hazard areas and in Lake Erie coastal erosion 25
areas identified under section 1506.06 of the Revised Code in 26
order to prevent or reduce the hazard resulting from flooding and 27
from erosion along Lake Erie. ~~In~~ Except as provided in division 28
(B)(3) of this section, in no case shall the regulations go beyond 29
the scope of regulating the safety, health, and sanitary 30
conditions of ~~such~~ those buildings. ~~Any~~ 31

Any person adversely affected by an order of the board 32
adopting, amending, or rescinding a regulation under this section 33
may appeal to the court of common pleas of the county on the 34
ground that the board failed to comply with the law in adopting, 35
amending, rescinding, publishing, or distributing the ~~regulations~~ 36
regulation, ~~or~~ that the regulation, as adopted or amended by the 37
board, is unreasonable or unlawful, or that the revision of the 38
regulation was unreasonable or unlawful. 39

(2) A county building code may include regulations for 40
participation in the national flood insurance program established 41
in the "Flood Disaster Protection Act of 1973," 87 Stat. 975, 42
U.S.C.A. 4002, as amended, and regulations adopted for the 43
purposes of section 1506.04 or 1506.07 of the Revised Code 44
governing the prohibition, location, erection, construction, 45
redevelopment, or floodproofing of new buildings or structures, 46

substantial improvements to existing buildings or structures, or 47
other development in unincorporated territory within flood hazard 48
areas identified under the "Flood Disaster Protection Act of 49
1973," 87 Stat. 975, 42 U.S.C.A. 4002, as amended, or within Lake 50
Erie coastal erosion areas identified under section 1506.06 of the 51
Revised Code, including, but not limited to, residential, 52
commercial, institutional, or industrial buildings or structures 53
or other permanent structures, as ~~that term is~~ defined in section 54
1506.01 of the Revised Code. Rules adopted under division 55
~~(A)~~(B)(2) of this section shall not conflict with the Ohio 56
building code. 57

(3)(a) A county building code may include regulations that 58
provide for a review of the specific effects of a proposed new 59
construction on existing surface or subsurface drainage. The 60
regulations may require reasonable drainage mitigation and 61
reasonable alteration of a proposed new construction before a 62
building permit is issued in order to prevent or correct any 63
adverse effects that the proposed new construction may have on 64
existing surface or subsurface drainage. The regulations shall not 65
be inconsistent with, more stringent than, or broader in scope 66
than standards adopted by the natural resource conservation 67
service in the United States department of agriculture concerning 68
drainage or rules adopted by the environmental protection agency 69
for reducing, controlling, or mitigating storm water runoff from 70
construction sites, where applicable. The regulations shall allow 71
a person who is registered under Chapter 4703. or 4733. of the 72
Revised Code to prepare and submit relevant plans and other 73
documents for review, provided that the person is authorized to 74
prepare the plans and other documents pursuant to the person's 75
registration. 76

(b) If regulations are adopted under division (B)(3) of this 77
section, the board shall specify in the regulations a procedure 78

for the review of the specific effects of a proposed new 79
construction on existing surface or subsurface drainage. The 80
procedure shall include at a minimum all of the following: 81

(i) A meeting at which the proposed new construction shall be 82
examined for those specific effects. The meeting shall be held 83
within thirty days after an application for a building permit is 84
filed or a review is requested unless the applicant agrees in 85
writing to extend that time period or to postpone the meeting to 86
another date, time, or place. The meeting shall be scheduled 87
within five days after an application for a building permit is 88
filed or a review is requested. 89

(ii) Written notice of the date, time, and place of that 90
meeting, sent by regular mail to the applicant. The written notice 91
shall be mailed at least seven days before the scheduled meeting 92
date. 93

(iii) Completion of the review by the board of county 94
commissioners not later than thirty days after the application for 95
a building permit is filed or a review is requested unless the 96
applicant has agreed in writing to extend that time period or 97
postpone the meeting to a later time, in which case the review 98
shall be completed not later than two days after the date of the 99
meeting. A complete review shall include the issuance of any order 100
of the board of county commissioners regarding necessary 101
reasonable drainage mitigation and necessary reasonable 102
alterations to the proposed new construction to prevent or correct 103
any adverse effects on existing surface or subsurface drainage. If 104
the review is not completed within the thirty-day period or an 105
extended or postponed period that the applicant has agreed to, the 106
proposed new construction shall be deemed to have no adverse 107
effects on existing surface or subsurface drainage, and those 108
effects shall not be a valid basis for the denial of a building 109
permit. 110

(iv) A written statement, provided to the applicant at the meeting or in an order for alterations to a proposed new construction, informing the applicant of the right to seek appellate review of the denial of a building permit under division (B)(3)(b)(iii) of this section by filing a petition in accordance with Chapter 2506. of the Revised Code. 111
