To amend section 1541.31 of the Revised Code and to 1
amend Sections 209.18 and 209.18.03 of Am. Sub. 2
H.B. 66 of the 126th General Assembly to revise 3
the Pymatuning Lake Compact, to exempt the 4
Division of Wildlife from making payments into the 5
Department of Natural Resources' Central Support 6
Indirect Fund, and to make an appropriation. 7

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:

Section 1. That section 1541.31 of the Revised Code be 8
amended to read as follows: 9

Sec. 1541.31. That the compact or agreement mentioned below 10
and every article, matter and thing therein is hereby ratified and 11
approved and shall be and hereafter remain in force agreeable to 12

the true tenor and intent thereof. 13

AGREEMENT BETWEEN THE COMMONWEALTH OF PENNSYLVANIA 14

AND THE STATE OF OHIO RE PYMATUNING LAKE 15

This agreement made and concluded between the commonwealth of 16
Pennsylvania, acting by and through its lawfully authorized 17
agency, namely, the water and power resources board, as party of 18
the first part, and the state of Ohio, acting by and through its 19
lawfully authorized agency, namely, its conservation commissioner, 20
as party of the second part, 21

Witnesseth: 22

Whereas, By act of assembly of Pennsylvania approved May 2, 23
1929, P. L. 1503, as amended by acts of May 5, 1931, P. O. 84, 24
April 24, 1933, P. L. 67, and July 9, 1935, P. L. 619, the 25
department of forests and waters of Pennsylvania, acting through 26
the water and power resources board, was authorized, inter alia, 27
to complete the work begun and continued under an act approved 28
July 25, 1913, P. L. 1270, entitled "An act providing for the 29
erection of a dam at the outlet of Pymatuning swamp, and the 30
establishment of a reservoir to conserve the waters thereof; 31
providing for the taking of land and materials necessary thereto; 32
vesting certain powers and duties in the water supply commission; 33
and making an appropriation", and did duly complete said work, 34
whereby there was created a lake or reservoir, now known and 35
hereinafter called Pymatuning Lake, extending in part across the 36
boundary line between said states of Ohio and Pennsylvania into 37
the state of Ohio, and 38

Whereas, The primary purposes of the project by which said 39
lake was created was to conserve water draining said swamp, all of 40
which has its source in Pennsylvania, as well as control floods 41
and regulate the flow of water in the Shenango and Beaver rivers, 42
and secondary thereto, permit the water and the land surrounding 43
the same to be used for fishing, hunting, recreation and park 44

purposes, under such terms and conditions as the water and power
resources board might determine, in such way or ways as in the
opinion of the said board will not materially interfere with the
primary purpose in said acts of assembly and hereinbefore
specifically referred to, and

Whereas, In view of the fact that a certain part of the lake
extends into the state of Ohio, whereby it is necessary and
desirable that the use of the lake for the secondary purposes,
namely, hunting, fishing, and recreational use, be uniformly
provided for, as well as to guard against inconvenience and
mischiefs which might hereafter arise from the uncertainty of
jurisdiction within and on said lake, to the end that the lake may
be adequately policed and conflicts of jurisdiction for the arrest
and punishment of offenders be avoided.

Now, then, therefore, in order that law and justice may in
all such cases be executed and take effect upon said lake from
shore to shore in all parts and places thereof where the lake is a
boundary between said states, the said parties hereto do agree for
and in behalf of their respective states in the manner following:

1. General use. It is hereby agreed that the entire
Pymatuning lake or reservoir, subject to the primary use thereof
by the commonwealth of Pennsylvania for regulating the flow of the
water in the Shenango and Beaver rivers as in paragraph 9
hereinafter more specifically mentioned, shall be open for
recreational use equally to the citizens of both contracting
parties, save as restricted as to hunting, fishing, and boating in
this agreement set forth, or hereafter mutually agreed upon by
both parties but no person shall be permitted to hunt or fish
therein or thereon unless the lawful holder of a fishing or
hunting license, authorizing ~~him or her~~ the holder so to do,

2. Arrest and prosecution of offenders. That each state shall 76
enjoy and exercise a concurrent jurisdiction upon the water (but 77
not upon the dry land), between the shores of said lake, including 78
the islands therein, with respect to the arrest and prosecution of 79
offenders, but in such sort that any boat or vessel fastened to or 80
aground on the shore of either state shall be considered 81
exclusively within the jurisdiction of said state; but that all 82
capital and other offenses, trespasses, or damages committed on or 83
over said lake, the judicial investigation and determination 84
thereof shall be exclusively vested in the state wherein the 85
offender or person charged with such offense shall be first 86
apprehended, arrested, prosecuted, or first brought to trial; it 87
being the intent of this agreement that an offender may be pursued 88
and arrested anywhere on or over said lake or shores thereof or 89
islands therein, regardless of the boundary lines, by any peace 90
officers or persons of either state authorized to make arrests, 91
whether the offenses be committed on or over any part of the lake, 92
on the shores or islands therein, regardless of the state in which 93
the place where the offense was committed lies. 94

3. Islands. All islands within the lake shall be considered 95
as part of the state of Pennsylvania. 96

4. Pollution of water. The lake shall be forever protected 97
against pollution of its waters by industrial trade waste, 98
individual, or municipal sewage from shore or boat, and the 99
discharge of any noxious or deleterious substance, liquid or 100
solid, into the waters of the lake which is or may become 101
inimical, or injurious, to public health or to animal or aquatic 102
life is hereby expressly forbidden. 103

No sewage may be discharged into the waters of the lake 104
except after complete treatment and then only upon permit first 105
approved by the health department of both states. 106

expressly limited and restricted to that portion of the lake 124
extending from the main dam near Jamestown northwardly to the 125
causeway at or near Linesville, ~~and provided further, that any~~ 126

fixed by the department of ~~environmental~~ conservation and natural 138

resources. 139

Any one who violates any of the provisions of this subsection 140
or who operates any boat equipped with a motor on the lake without 141

no part of the lake shall be open for fishing until July 1, 1937, 160
and thereafter shall be closed in each year between December 10 161
and June 30. 162

Unless otherwise mutually agreed to by both parties hereto, 163

the two states. 166

7. Reciprocal hunting rights. Reciprocal hunting rights are 167
hereby granted to the licensed hunters of each state on the water 168

the area bounded on the south by an east and west line crossing 170
the state boundary 0.5 of a mile north of Simons, Ohio, and on the 171
north by a line drawn between the point at which the Padanaram 172

the state of Pennsylvania, having established a wild migratory 186

entitling the residents of either state, whether licensed to fish 190
or hunt, or otherwise, to fish in, hunt, ~~trespass~~ trespass, or 191

power resources board of Pennsylvania, or any authority 230
established hereafter by said state to exercise such power, to at 231
any time now or hereafter, raise or draw off so much of the waters 232

of the lake as in its sole judgment may be necessary to maintain 233
or regulate the flow of the Shenango and Beaver rivers in 234
furtherance of the primary purpose for which said lake was 235
established, and said water and power resources board shall, 236
without let or hindrance, have the full right irrespective of 237
other considerations, to release so much of the water as they may 238
