"Basic health care services" does not include experimental procedures.	62 63
Except as provided by divisions (A)(2) and (3) of this section in connection with the offering of coverage for diagnostic and treatment services for biologically based mental illnesses, a health insuring corporation shall not offer coverage for a health care service, defined as a basic health care service by this division, unless it offers coverage for all listed basic health care services. However, this requirement does not apply to the coverage of beneficiaries enrolled in Title XVIII of the "Social Security Act," 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended, pursuant to a medicare contract, or to the coverage of beneficiaries enrolled in the federal employee health benefits program pursuant to 5 U.S.C.A. 8905, or to the coverage of beneficiaries enrolled in Title XIX of the "Social Security Act," 49 Stat. 620 (1935), 42 U.S.C.A. 301, as amended, known as the medical assistance program or medicaid, provided by the department	64 65 66 67 68 69 70 71 72 73 74 75 76 77 78

of job and family services under Chapter 5111. of the Revised 79  
Code, or to the coverage of beneficiaries under any federal health 80  
care program regulated by a federal regulatory body, or to the 81  
coverage of beneficiaries under any contract covering officers or 82  
employees of the state that has been entered into by the 83  
department of administrative services. 84

(2) A health insuring corporation may offer coverage for 85  
diagnostic and treatment services for biologically based mental 86  
illnesses without offering coverage for all other basic health 87  
care services. A health insuring corporation may offer coverage 88  
for diagnostic and treatment services for biologically based 89  
mental illnesses alone or in combination with one or more 90  
supplemental health care services. However, a health insuring 91  
corporation that offers coverage for any other basic health care 92  
service shall offer coverage for diagnostic and treatment services 93  
for biologically based mental illnesses in combination with the 94  
offer of coverage for all other listed basic health care services. 95

(3) A health insuring corporation that offers coverage for 96  
basic health care services is not required to offer coverage for 97  
diagnostic and treatment services for biologically based mental 98  
illnesses in combination with the offer of coverage for all other 99  
listed basic health care services if all of the following apply: 100

(a) The health insuring corporation submits documentation 101  
certified by an independent member of the American academy of 102  
actuaries to the superintendent of insurance showing that incurred 103  
claims for diagnostic and treatment services for biologically 104  
based mental illnesses for a period of at least six months 105  
independently caused the health insuring corporation's costs for 106  
claims and administrative expenses for the coverage of basic 107  
health care services to increase by more than one per cent per 108  
year. 109

(b) The health insuring corporation submits a signed letter 110

from an independent member of the American academy of actuaries to 111  
the superintendent of insurance opining that the increase in costs 112  
described in division (A)(3)(a) of this section could reasonably 113  
justify an increase of more than one per cent in the annual 114  
premiums or rates charged by the health insuring corporation for 115  
the coverage of basic health care services. 116

(c) The superintendent of insurance makes the following 117  
determinations from the documentation and opinion submitted 118  
pursuant to divisions (A)(3)(a) and (b) of this section: 119

(i) Incurred claims for diagnostic and treatment services for 120  
biologically based mental illnesses for a period of at least six 121  
months independently caused the health insuring corporation's 122  
costs for claims and administrative expenses for the coverage of 123  
basic health care services to increase by more than one per cent 124  
per year. 125

(ii) The increase in costs reasonably justifies an increase 126  
of more than one per cent in the annual premiums or rates charged 127  
by the health insuring corporation for the coverage of basic 128  
health care services. 129

Any determination made by the superintendent under this 130  
division is subject to Chapter 119. of the Revised Code. 131

(B)(1) "Supplemental health care services" means any health 132  
care services other than basic health care services that a health 133  
insuring corporation may offer, alone or in combination with 134

(l) Physical therapy services;	154
(m) Chiropractic services;	155
(n) Any other category of services approved by the superintendent of insurance.	156 157
(2) If a health insuring corporation offers prescription drug services under this division, the coverage shall include prescription drug services for the treatment of biologically based mental illnesses on the same terms and conditions as other physical diseases and disorders.	158 159 160 161 162
(C) "Specialty health care services" means one of the supplemental health care services listed in division (B) of this section, when provided by a health insuring corporation on an outpatient-only basis and not in combination with other supplemental health care services.	163 164 165 166 167
