Sec. 5.2245. The month of May is designated as "Nurses Month" in recognition of the hard work and dedication of nurses and their significant contributions in improving the health care of the citizens of this state.

In enacting this section, it is the intent of the general assembly to acknowledge and celebrate the nurses of this state. Although nurses practice their profession in a wide variety of settings, including hospitals, nursing homes, other health care facilities, physician's offices, schools, and even private homes, the contributions made by the nursing profession in the improvement of the health care system are sometimes overlooked. Therefore, the general assembly feels that it is vitally important that a month be formally designated as "Nurses Month" for the purpose of increasing public awareness of the role nurses play in the health and well-being of all Ohioans.

Sec. 5.2247. The nineteenth day of June is designated as "Juneteenth National Freedom Day" to acknowledge the freedom, history, and culture that June 19, 1865, the day on which the last slaves in the United States were set free in Texas, has come to symbolize.

It is the intent of the general assembly in enacting this section to

increase public awareness and understanding of brain aneurysms. The general assembly feels that it is vitally important that the state designate September as "Brain Aneurysm Awareness Month." According to the brain aneurysm foundation, brain aneurysms afflict approximately two per cent of Americans, most commonly those aged thirty-five to sixty years. The state encourages and commends private efforts, including those of the brain aneurysm foundation, to enhance funding for aneurysm research, provide educational materials and programs, and create a support network for patients, survivors, and their families.

The general assembly considers it vitally important that the state join with the epilepsy foundation in formally designating November as "Epilepsy Awareness Month." According to the United States centers for disease control and prevention (CDC), epilepsy currently affects approximately 2.7 million Americans - roughly one of every one hundred individuals - with as many as 180,000 new cases diagnosed each year. Epilepsy afflicts people of all ages,

but especially the very young and the elderly. The CDC estimates that about ten per cent of Americans will experience a seizure during their lifetime, and about three per cent will be diagnosed with epilepsy by age eighty.

Sec. 5.2261. The month of November is designated as "Omega Psi Phi Month."

Sec. 5.2262. The twenty-first of December is designated "Homeless Persons' Memorial Day" to bring attention to the tragedy of homelessness.
