To enact section 5111.142 of the Revised Code to 1  
require the Department of Job and Family Services 2  
to implement a case management component of the 3  
Medicaid program. 4

**BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:**

**Section 1.** That section 5111.142 of the Revised Code be 5  
enacted to read as follows: 6

**Sec. 5111.142.** (A) The department of job and family services 7  
shall conduct a review of case management services provided under 8  
the fee-for-service component of the medicaid program. In 9  
conducting the review, the department shall identify which groups 10  
of medicaid recipients not participating in the care management 11  
system established under section 5111.16 of the Revised Code or 12  
enrolled in a medicaid waiver component as defined in section 13  
5111.85 of the Revised Code do not receive case management 14  
services and which groups of such medicaid recipients receive case 15  
management services as part of two or more components of the 16  
medicaid program or from two or more providers. 17

After completing the review, the department shall implement a 18  
case management component of the medicaid program. The department 19  
shall model the case management component on the former enhanced 20  
care management program that the department created as part of the 21  
care management system established under section 5111.16 of the 22  
Revised Code. The department shall make adjustments to the former 23  
enhanced care management program as are necessary to accomodate 24  
the groups the case management component is to serve. 25

(B) At a minimum, the case management component shall serve 26  
medicaid recipients who are members of the groups identified in 27  
the review conducted under this section and have been diagnosed by 28  
a physician as having any of the following medical conditions: 29

- (1) A high-risk pregnancy; 30
- (2) Diabetes; 31
- (3) Asthma; 32
- (4) Lung disease; 33
- (5) Congestive heart failure; 34
- (6) Coronary artery disease; 35
- (7) Hypertension; 36
- (8) Hyperlipidemia; 37
- (9) Infection with the human immunodeficiency virus; 38
- (10) Acquired immunodeficiency syndrome; 39
- (11) Chronic obstructive pulmonary disease. 40
