31 SYNOPSIS

32 **Auto Emissions Testing (E-Check)**

33 **R.C. 3704.14**

34 Requires that the new contract for the auto emissions
35 testing program achieve at least the same emission reductions as
36 the existing contract rather than the same ozone precursor
37 reductions as in current law.

38 Alters the amendment to the bill regarding the auto
39 emissions testing program, specifically the provisions of that
40 amendment that apply to the competitive selection process for
41 the auto emissions testing contract as follows:

42 (1) Eliminating a provision of the bill that requires that
43 the tailpipe emissions analyzer be BAR-97 certified;

44 (2) Eliminating a provision of the bill that requires the
45 contractor to supply proven technology for on-board diagnostic
46 testing equipment to all inspection facilities;

47 (3) Amending a provision of the bill requiring the
48 contractor to use local businesses by instead specifying that
49 the contractor utilize established local businesses, auto repair
50 facilities, or leased properties to operate state-approved
51 inspection and maintenance testing facilities;

52 (4) Requiring the vendor to comply with testing
53 methodology and supply the required equipment approved by the
54 director of environmental protection as specified in the
55 competitive selection process.
