A B I L L

To enact sections 3701.781, 3701.782, 3701.783, 1
3701.784, 3701.785, and 3701.786 of the Revised 2
Code to create the Lupus Education and Awareness 3
Program. 4

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:

Section 1. That sections 3701.781, 3701.782, 3701.783, 5
3701.784, 3701.785, and 3701.786 of the Revised Code be enacted to 6
read as follows: 7

Sec. 3701.781. (A) The commission on minority health shall 8
establish, promote, and maintain a lupus education and awareness 9
program with an emphasis on minority populations and at-risk 10
communities to raise public awareness, educate consumers, and 11
educate and train health professionals, human services providers, 12
and other audiences. 13

(B) The commission, in creating and implementing the program, 14
shall do all of the following: 15

(1) Provide sufficient staff and appropriate training to 16

implement the program; 17

(2) Establish a grant program to support nonprofit voluntary health organizations with expertise in lupus to increase public awareness and enhance health professional education and understanding of the symptoms and consequences of lupus and the populations most at risk; 18
19
20
21
22

(3) Establish an intergovernmental council and advisory panel to oversee the implementation of the program; 23
24

(4) Identify the appropriate entities to carry out the program; 25
26

(5) Base the program on the most current scientific information and findings; 27
28

(6) Work with government entities, community and business leaders, community organizations, health and human services providers, and national, state, and local lupus organizations, such as the lupus foundation of America, inc., to coordinate efforts to maximize state resources in the areas of lupus education and awareness; 29
30
31
32
33
34

(7) Identify and use other successful lupus education and awareness programs and procure related materials and services from organizations with appropriate expertise and knowledge of lupus. 35
36
37

(C) The commission may accept gifts, grants, and donations from the federal government, foundations, organizations, medical schools, and other entities for fulfilling the obligations of the program. 38
39
40
41

(D) The commission shall seek any federal waiver that may be necessary to maximize funds from the federal government to implement the program. 42
43
44

Sec. 3701.782. (A)(1) The commission on minority health shall conduct a needs assessment to identify all of the following: 45
46

(a) The level of statewide health professional and public awareness about lupus; 47
48

(b) The existence of lupus education, awareness, and treatment programs and related technical assistance available in the state and nationwide; 49
50
51

(c) The lupus-related educational and support service needs of health care providers in the state, including physicians, nurses, health plans, and other health professionals and health care entities; 52
53
54
55

(d) The needs of people with lupus, their families, and caregivers, including health care providers, physicians, nurses, health plans, and other health professionals and health care entities; 56
57
58
59

(e) The services available to individuals with lupus, including the existence and availability of lupus treatment and specialty care, lupus support groups, and other related care and management services. 60
61
62
63

(2) Based on the needs assessment, the commission shall develop and maintain a directory of lupus-related services and health care providers with specialization in services to diagnose and treat lupus. The commission shall disseminate the directory to all stakeholders, including individuals with lupus, families, representatives from voluntary organizations, health professionals, health plans, and state and local health agencies. 64
65
66
67
68
69
70

(B) The commission shall undertake activities to raise public awareness about the symptoms of lupus, personal risk factors, and options for diagnosing and treating the disease with a particular focus on populations at elevated risk for lupus, including women and communities of color. Such activities shall include but not be limited to the following: 71
72
73
74
75
76

(1) Implementing a statewide campaign to educate the general 77

public about lupus by utilizing print, radio, and television 78
public service announcements, advertisements, posters, and other 79
materials; 80

(2) Disseminating health information and conducting 81
individual risk assessments at public events, such as health fairs 82
and community forums sponsored by the Ohio department of health; 83

(3) Distributing information through local health 84
departments; schools; area agencies on aging; employer wellness 85
programs; physicians and other health professionals; hospitals and 86
health plans; women's, health, nonprofit, and community-based 87
organizations; and regional offices of the Ohio department of 88
health. 89

Sec. 3701.783. (A) The commission on minority health shall 90
establish a program to award grants to educate and train 91
physicians, health professionals, and other service providers on 92
the most current, accurate scientific and medical information on 93
lupus diagnosis, treatment, and therapeutic decision-making, 94
including medical best practices for detecting and treating the 95
disease in special populations, risks and benefits of medications, 96
and research advances. In awarding grants, the commission shall 97
allocate the total amount available for the grants in amounts that 98
are proportionate to the populations of the areas served by the 99
Ohio chapters of the lupus foundation of America, inc. 100

To be eligible for a grant, an applicant must be affiliated 101
with the foundation. 102

(B) Each grant recipient shall do all of the following: 103

(1) Develop health professional educational materials that 104
identify the latest scientific and medical information and 105
clinical applications; 106

(2) Work to increase knowledge among physicians, nurses, and 107

other health and human services professionals about the importance 108
of lupus diagnosis, treatment, and rehabilitation; 109

(3) Use available curricula for training of health and human 110
services providers and community leaders on lupus detection and 111
treatment; 112

(4) Support continuing medical education programs in all 113
geographical areas of the state presented by the leading state 114
academic institutions by providing the most current information; 115

(5) Provide workshops and seminars for in-depth professional 116
development in the field of care and management of lupus patients 117
to bring the latest information on clinical advances to health 118
care providers; 119

(6) Conduct statewide conferences on lupus at appropriate 120
intervals; 121

(7) Prepare an annual report that describes the recipient's 122
use of the grant and submit a copy of the report to the 123
commission. 124

Sec. 3701.784. (A) In establishing the intergovernmental 125
council as required by division (B)(3) of section 3701.781 of the 126
Revised Code, the commission on minority health shall seek to 127
ensure coordination of lupus education and awareness efforts and 128
efforts to address health conditions disproportionately affecting 129
women and communities of color. The chairperson of the commission 130
shall serve as the council's chairperson. The council shall 131
include representatives from appropriate state departments and 132
agencies, including entities with responsibility for health 133
disparities, medicaid, public health programs, education, public 134
welfare, and women's health programs. 135

(B) The council shall do all of the following: 136

(1) Provide oversight to the lupus education and awareness 137

program, as well as other lupus programs conducted by the 138
commission; 139

(2) Develop and issue grant applications and policies and 140
procedures for programs aimed at health professionals and the 141
public; 142

(3) Establish a mechanism for sharing information on lupus 143
among all officials and employees involved in carrying out 144
lupus-related programs; 145

(4) Assist the commission and other offices in developing and 146
coordinating plans for education and health promotion on lupus and 147
ensure that issues related to lupus are integrated into other 148
statewide plans; 149

(5) Prepare an annual report that describes educational 150
initiatives on lupus sponsored by the state and make 151
recommendations for new educational initiatives on lupus. The 152
report shall be transmitted to the general assembly and be made 153
available to the public. 154

Sec. 3701.785. (A) In establishing the advisory panel as 155
required by division (B)(3) of section 3701.781 of the Revised 156
Code, the commission on minority health shall coordinate the panel 157
to provide input and counsel regarding the lupus education and 158
awareness program. 159

(B)(1) Individuals and organizations may submit to the 160
commission nominations for appointments to the panel. Each panel 161
member shall have familiarity with lupus and issues that surround 162
lupus. 163

(2) The panel shall be comprised of the following members to 164
be appointed by the commission: 165

(a) At least three individuals with lupus, at least one of 166
whom is a member of a minority group; 167

<u>(b) Not more than two representatives from the commission;</u>	168
<u>(c) At least five individuals from lupus nonprofit health organizations, with preference given to individuals from the lupus foundation of America, inc.;</u>	169 170 171
<u>(d) At least five scientists or clinicians with experience in lupus who participate in various fields of scientific endeavor, including the fields of biomedical research, social, translational, behavioral and epidemiological research, and public health.</u>	172 173 174 175 176
<u>(3) The commission shall select from among the panel members one member to serve as chairperson of the panel.</u>	177 178
<u>Members of the panel shall serve terms of two years each. Members may be named to serve a total of two terms and terms may be consecutive.</u>	179 180 181
<u>A majority of the members of the panel constitutes a quorum. A majority vote of a quorum is required for any official action of the panel.</u>	182 183 184
<u>The panel shall meet at the call of the panel chairperson, but not fewer than four times per year.</u>	185 186
<u>All members shall serve without compensation, but may be reimbursed for actual, necessary expenses incurred in the performance of their duties.</u>	187 188 189
<u>(4) The panel shall be responsible for advising the commission and the intergovernmental council with respect to the implementation of the lupus education and awareness program. The commission shall consult with the advisory panel on a regular basis.</u>	190 191 192 193 194
<u>Sec. 3701.786. There is hereby created in the state treasury the lupus education and awareness program fund. All moneys accepted under division (C) of section 3701.781 of the Revised</u>	195 196 197

Code shall be credited to the fund. The commission shall use the 198
fund to administer the lupus education and awareness program under 199
section 3701.781 of the Revised Code. 200

Section 2. The General Assembly hereby finds the following: 201

(A) Lupus is a serious, complex, and debilitating autoimmune 202
disease that can cause inflammation and tissue damage to virtually 203
any organ system in the body, including the skin, joints, other 204
connective tissue, blood and blood vessels, heart, lungs, kidney, 205
and brain. 206

(B) The Lupus Foundation of America, Inc., estimates that 207
approximately 1.5 to 2 million Americans live with lupus; lupus 208
affects women nine times more often than men and 80 per cent of 209
newly diagnosed cases of lupus develop among women of childbearing 210
age. 211

(C) Lupus disproportionately affects women of color; it is 212
two to three times more common among African Americans, Hispanics, 213
Asians, and Native Americans and is generally more prevalent in 214
minority populations. According to the Centers for Disease Control 215
and Prevention, the rate of lupus mortality has increased since 216
the late 1970's and is higher among older African-American women. 217

(D) No new drugs have been approved by the U.S. Food and Drug 218
Administration specifically for lupus in nearly 40 years and while 219
current treatments for the disease can be effective, they can 220
cause damaging side effects. 221

(E) The pain and fatigue associated with lupus can threaten 222
the ability to live independently, maintain employment, and lead a 223
normal life. One in five individuals with lupus is disabled by the 224
disease, and consequently receives support from government 225
programs, including Medicare, Medicaid, Social Security 226
Disability, and Social Security Supplemental Income. 227

(F) The estimated average annual cost of medical treatment 228
for an individual with lupus is between \$10,000 and \$30,000; for 229
individuals who have the most serious form of lupus, medical costs 230
can greatly exceed this amount, causing a significant economic, 231
emotional, and social burden to the entire family and society. 232

(G) More than half of individuals with lupus suffer four or 233
more years and visit three or more physicians before obtaining a 234
diagnosis of lupus; early diagnosis of and treatment for lupus can 235
prevent or reduce serious organ damage, disability, and death. 236

(H) Despite the magnitude of lupus and its impact on 237
individuals and families, health professional and public 238
understanding of lupus remains low; only one in five Americans can 239
provide basic information about lupus, and awareness of lupus is 240
lowest among adults 18 to 34 years of age - the age group most 241
likely to develop lupus. 242

(I) Lupus is a significant national health issue that 243
deserves a comprehensive and coordinated response by state and 244
federal governments with involvement of the health care provider, 245
patient, and public health communities. 246

Section 3. The purpose of this act is to create a 247
multi-pronged, statewide program to promote public and health 248
professional awareness and increase knowledge concerning the 249
causes and consequences of lupus, the importance of early 250
diagnosis and appropriate management, and effective treatment and 251
management strategies by all of the following: 252

(A) Conducting educational and training programs for health 253
professionals on lupus diagnosis and management; 254

(B) Developing and disseminating educational materials and 255
information to patients and health professionals on lupus research 256
results and health care services available; 257

(C) Designing and implementing a statewide public education 258

campaign aimed at heightening public awareness of lupus;	259
(D) Leveraging educational and training resources and	260
services previously developed by organizations with appropriate	261
expertise and knowledge of lupus.	262
