(c) "Local resources" means any moneys generated in any manner permitted for a school district board to raise the school district portion of a project undertaken with assistance under sections 3318.01 to 3318.20 of the Revised Code.

(d) "Tangible personal property phase-out impacted district" means a school district for which the taxable value of its tangible personal property certified under division (A)(2) of section 3317.021 of the Revised Code for tax year 2005, excluding the taxable value of public utility personal property, made up eighteen per cent or more of its total taxable value for tax year 2005 as certified under that section.

(2) For purposes of determining the required level of indebtedness, the required percentage of the basic project costs under division (C)(1) of this section, and priority for assistance under sections 3318.01 to 3318.20 of the Revised Code, the percentile ranking of a school district with which the commission has entered into an agreement under this section between the first day of July and the thirty-first day of August in each fiscal year is the percentile ranking calculated for that district for the immediately preceding fiscal year, and the percentile ranking of a school district with which the commission has entered into such agreement between the first day of September and the thirtieth day of June in each fiscal year is the percentile ranking calculated for that district for the current fiscal year. However, in the case of a tangible personal property phase-out impacted district, the district's priority for assistance under sections 3318.01 to 3318.20 of the Revised Code and its portion of the basic project cost under those sections shall be determined in the manner prescribed, respectively, in divisions (B)(3)(b) and (E)(1)(b) of this section.

Revised Code when the school district becomes eligible for that assistance. Any school district that is reasonably expected to receive assistance under sections 3318.01 to 3318.20 of the Revised Code within two fiscal years from the date the school district adopts its resolution under division (B) of this section shall not be eligible to participate in the program established under this section.

(2) To participate in the program, a school district board shall first adopt a resolution certifying to the commission the board's intent to participate in the program.

The resolution shall specify the approximate date that the board intends to seek elector approval of any bond or tax measures or to apply other local resources to use to pay the cost of classroom facilities to be constructed under this section. The resolution may specify the application of local resources or elector-approved bond or tax measures after the resolution is adopted by the board, and in such case the board may proceed with a discrete portion of its project under this section as soon as the commission and the controlling board have approved the basic project cost of the district's classroom facilities needs as specified in division (D) of this section. The board shall submit its resolution to the commission not later than ten days after the date the resolution is adopted by the board.

The commission shall not consider any resolution that is submitted pursuant to division (B)(2) of this section, as amended by this amendment, sooner than September 14, 2000.

(3) For purposes of determining when a district that enters into an agreement under this section becomes eligible for assistance under sections 3318.01 to 3318.20 of the Revised Code, the commission shall use one of the following as applicable:

(a) Except for a tangible personal property phase-out impacted district, the district's percentile ranking determined at the time the district entered into the agreement under this section, as prescribed by division (A)(2) of this section;

(b) For a tangible personal property phase-out impacted district, the lesser of (i) the district's percentile ranking determined at the time the district entered into the agreement under this section, as prescribed by division (A)(2) of this section, or (ii) the district's current percentile ranking under section 3318.011 of the Revised Code.

(4) Any project under this section shall comply with section 3318.03 of the Revised Code and with any specifications for plans and materials for classroom facilities adopted by the commission under section 3318.04 of the Revised Code.

(5) If a school district that enters into an agreement under this section has not begun a project applying local resources as provided for under that agreement at the time the district is notified by the commission that it is eligible to receive state assistance under sections 3318.01 to 3318.20 of the Revised Code, all assessment and agreement documents entered into under this section are void.

(6) Only construction of or repairs to classroom facilities that have been approved by the commission and have been therefore included as part of a district's basic project cost qualify for application of local resources under this section.

(C) Based on the results of on-site visits and assessment, the commission shall determine the basic project cost of the school district's classroom facilities needs. The commission shall determine the school district's portion of such basic project cost, which shall be the greater of:

(1) The required percentage of the basic project costs, determined based on the school district's percentile ranking;

(2) An amount necessary to raise the school district's net bonded indebtedness, as of the fiscal year the commission and the school district enter into the agreement under division (B) of this section, to within five thousand dollars of the required level of indebtedness.

(D)(1) When the commission determines the basic project cost of the classroom facilities needs of a school district and the school district's portion of that basic project cost under division (C) of this section, the project shall be conditionally approved. Such conditional approval shall be submitted to the controlling board for approval thereof. The controlling board shall forthwith approve or reject the commission's determination, conditional approval, and the amount of the state's portion of the basic project cost; however, no state funds shall be encumbered under this section. Upon approval by the controlling board, the school district board may identify a discrete part of its classroom facilities needs, which shall include only new construction of or additions or major repairs to a particular building, to address with local resources. Upon identifying a part of the school district's basic project cost to address with local resources, the school district board may allocate any available school district moneys to pay the cost of that identified part, including the proceeds of an issuance of bonds if approved by the electors of the school district.

All local resources utilized under this division shall first be deposited in the project construction account required under section 3318.08 of the Revised Code.

(D)(3) of this section, for a school district to qualify for participation in the program authorized under this section, one of the following conditions shall be satisfied:

(a) The electors of the school district by a majority vote shall approve the levy of taxes outside the ten-mill limitation for a period of twenty-three years at the rate of not less than one-half mill for each dollar of valuation to be used to pay the cost of maintaining the classroom facilities included in the basic project cost as determined by the commission. The form of the ballot to be used to submit the question whether to approve the tax required under this division to the electors of the school district shall be the form for an additional levy of taxes prescribed in section 3318.361 of the Revised Code, which may be combined in a single ballot question with the questions prescribed under section 5705.218 of the Revised Code.

(b) As authorized under division (C) of section 3318.05 of the Revised Code, the school district board shall earmark from the proceeds of a permanent improvement tax levied under section 5705.21 of the Revised Code, an amount equivalent to the additional tax otherwise required under division (D)(2)(a) of this section for the maintenance of the classroom facilities included in the basic project cost as determined by the commission.

(c) As authorized under section 3318.051 of the Revised Code, the school district board shall, if approved by the commission, annually transfer into the maintenance fund required under section 3318.05 of the Revised Code the amount prescribed in section 3318.051 of the Revised Code in lieu of the tax otherwise required under division (D)(2)(a) of this section for the maintenance of the classroom facilities included in the basic project cost as determined by the commission.

(d) If the school district board has rescinded the agreement to make transfers under section 3318.051 of the Revised Code, as provided under division (F) of that section, the electors of the school district, in accordance with section 3318.063 of the Revised Code, first shall approve the levy of taxes outside the ten-mill limitation for the period specified in that section at a rate of not less than one-half mill for each dollar of valuation.

(e) The school district board shall apply the proceeds of a tax to leverage bonds as authorized under section 3318.052 of the Revised Code or dedicate a local donated contribution in the manner described in division (B) of section 3318.084 of the Revised Code in an amount equivalent to the additional tax otherwise required under division (D)(2)(a) of this section for the maintenance of the classroom facilities included in the basic project cost as determined by the commission.

In order to exercise this option, the board shall certify to the commission a resolution indicating the board's intent to do so prior to entering into an agreement under division (B) of this section.

(4) If pursuant to division (D)(3) of this section a district board opts to delay levying an additional tax until the district becomes eligible for state assistance, it shall submit the question of levying that tax to the district electors as follows:

(a) In accordance with section 3318.06 of the Revised Code if it will also be necessary pursuant to division (E) of this section to submit a proposal for approval of a bond issue;

(b) In accordance with section 3318.361 of the Revised Code if it is not necessary to also submit a proposal for approval of a bond issue pursuant to division (E) of this section.

(5) No state assistance under sections 3318.01 to 3318.20 of the Revised Code shall be released until a school district board that adopts and certifies a resolution under division (D) of this section also demonstrates to the satisfaction of the commission compliance with the provisions of division (D)(2) of this section.

Any amount required for maintenance under division (D)(2) of this section shall be deposited into a separate fund as specified in division (B) of section 3318.05 of the Revised Code.

(E)(1) If the school district becomes eligible for state assistance under sections 3318.01 to 3318.20 of the Revised Code based on its percentile ranking under division (B)(3) of this section, the commission shall conduct a new assessment of the school district's classroom facilities needs and shall recalculate the basic project cost based on this new assessment. The basic project cost recalculated under this division shall include the amount of expenditures made by the school district board under division (D)(1) of this section. The commission shall then recalculate the school district's portion of the new basic project cost, which shall be one of the following as applicable:

(a) Except for a tangible personal property phase-out impacted district, the percentage of the original basic project cost assigned to the school district as its portion under division (C) of this section;

(b) For a tangible personal property phase-out impacted district, the lesser of (i) the percentage of the original basic project cost assigned to the school district as its portion under division (C) of this section, or (ii) the percentage of the new basic project cost determined under section 3318.032

The commission shall deduct the expenditure of school district moneys made under division (D)(1) of this section from the school district's portion of the basic project cost as recalculated under this division. If the amount of school district resources applied by the school district board to the school district's portion of the basic project cost under this section is less than the total amount of such portion as recalculated under this division, the school district board by a majority vote of all of its members shall, if it desires to seek state assistance under sections 3318.01 to 3318.20 of the Revised Code, adopt a resolution as specified in section 3318.06 of the Revised Code to submit to the electors of the school district the question of approval of a bond issue in order to pay any additional amount of school district portion required for state assistance. Any tax levy approved under division (D) of this section satisfies the requirements to levy the additional tax under section 3318.06 of the Revised Code.

(2) If the amount of school district resources applied by the school district board to the school district's portion of the basic project cost under this section is more than the total amount of such portion as recalculated under ~~this division (E)(1) of this section~~, within one year after the school district's portion is so recalculated ~~under division (E)(1) of this section~~ the commission may grant to the school district the difference between the two calculated portions, but at no time shall the commission expend any state funds on a project in an amount greater than the state's portion of the basic project cost as recalculated under ~~this division (E)(1) of this section~~.

Any reimbursement under this division shall be only for local resources the school district has applied toward construction cost expenditures for the classroom facilities approved by the commission, which shall not include any financing costs associated with that construction.

The school district board shall use any moneys reimbursed to the district under this division to pay off any debt service the district owes for classroom facilities constructed under its project under this section before such moneys are applied to any other purpose. However, the district board first may deposit moneys reimbursed under this division into the district's general fund or a permanent improvement fund to replace local resources the district withdrew from those funds, as long as, and to the extent that, those local resources were used by the district for constructing classroom facilities included in the district's basic project cost.

If the board of education fails to certify a resolution to the board of township trustees within the time prescribed by this section, the board of township trustees thereupon may adopt the resolution and may declare the improvements a public purpose for up to thirty years or, in the case of exemption percentages proposed in excess of seventy-five per cent, for the exemption percentage specified in the resolution. The board of township trustees may adopt the resolution at any time after the board of education certifies its resolution approving the exemption to the board of township trustees, or, if the board of education approves the exemption on the condition that a mutually acceptable compensation agreement be negotiated, at any time after the compensation agreement is agreed to by the board of education and the board of township trustees. If a mutually acceptable compensation agreement is negotiated between the board of township trustees and the board of education, including agreements for payments in lieu of taxes under section 5709.74 of the Revised Code, the board of township trustees shall compensate the joint vocational school district within which the parcel or district is located at the same rate and under the same terms received by the city, local, or exempted village school district.

JRK

If a board of education has adopted a resolution waiving its right to approve exemptions from taxation under this section and the resolution remains in effect, approval of such exemptions by the board of education is not required under division (D) of this section. If a board of education has adopted a resolution allowing a board of township trustees to deliver the notice required under division (D) of this section fewer than forty-five business days prior to adoption of the resolution by the board of township trustees, the board of township trustees shall deliver the notice to the board of education not later than the number of days prior to the adoption as prescribed by the board of education in its resolution. If a board of education adopts a resolution waiving its right to approve exemptions or shortening the notification period, the board of education shall certify a copy of the resolution to the board of township trustees. rescinds the resolution, it shall certify notice of the rescission to the board of township trustees.

If the board of township trustees is not required by division (D) of this section to notify the board of education of the board of township trustees' intent to declare improvements to be a public purpose, the board of township trustees shall comply with the notice requirements imposed under section 5709.83 of the Revised Code before taking formal action to adopt the resolution making that declaration, unless the board of education has adopted a resolution under that section waiving its right to receive the notice.

(E)(1) If a proposed resolution under division (C)(1) of this section exempts improvements with respect to a parcel within an incentive district for more than ten years, or the percentage of the improvement exempted from taxation exceeds seventy-five per cent, not later than forty-five business days prior to adopting the resolution the board of township trustees shall deliver to the board of county commissioners of the county within which the incentive district is or will be located a notice that states its intent to adopt a resolution creating an incentive district. The notice shall include a copy of the proposed resolution, identify the parcels for which improvements are to be exempted from taxation, provide an estimate of the true value in money of the improvements, specify the period of time for which the improvements would be exempted from taxation, specify the percentage of the improvements that would be exempted from taxation, and indicate the date on which the board of township trustees intends to adopt the resolution.

(2) The board of county commissioners, by resolution adopted by a majority of the board, may object to the exemption for the number of years in excess of ten, may object to the exemption for the percentage of the improvement to be exempted in excess of seventy-five per cent, or both. If the board of county commissioners objects, the board may negotiate a mutually acceptable compensation agreement with the board of township trustees. In no case shall the compensation provided to the board of county commissioners exceed the property taxes foregone due to the exemption. If the board of county commissioners objects, and the board of county commissioners and board of township trustees fail to negotiate a mutually acceptable compensation agreement, the resolution adopted under division (C)(1) of this section shall provide to the board of county commissioners compensation in the eleventh and subsequent years of the exemption period equal in value to not more than fifty per cent of the taxes that would be payable to the county or, if the board of county commissioner's objection

The board of county commissioners shall certify its resolution to the board of township trustees not later than thirty days after receipt of the notice.

(3) If the board of county commissioners does not object or fails to certify its resolution objecting to an exemption within thirty days after receipt of the notice, the board of township trustees may adopt its resolution, and no compensation shall be provided to the board of county commissioners. If the board of county commissioners timely certifies its resolution objecting to the trustees' resolution, the board of township trustees may adopt its resolution at any time after a mutually acceptable compensation agreement is agreed to by the board of county commissioners and the board of township trustees, or, if no compensation agreement is negotiated, at any time after the board of township trustees agrees in the proposed resolution to provide compensation to the board of county commissioners of fifty per cent of the taxes that would be payable to the county in the eleventh and subsequent years of the exemption period or on the portion of the improvement in excess of seventy-five per cent, were that portion to be subject to taxation.

(F) Service payments in lieu of taxes that are attributable to any amount by which the effective tax rate of either a renewal levy with an increase or a replacement levy exceeds the effective tax rate of the levy renewed or replaced, or that are attributable to an additional levy, for a levy authorized by the voters for any of the following purposes on or after January 1, 2006, and which are provided pursuant to a resolution creating an incentive district under division (C)(1) of this section that is adopted on or after January 1, 2006, shall be distributed to the appropriate taxing authority as required under division (C) of section 5709.74 of the Revised Code in an amount equal to the amount of taxes from that additional levy or from the increase in the effective tax rate of such renewal or replacement levy that would have been payable to that taxing authority from the following levies were it not for the exemption authorized under division (C) of this section:

5709.75 of the Revised Code, whichever occurs first. The exemption of an improvement with respect to a parcel or within an incentive district may end on a later date, as specified in the resolution, if the board of township trustees and the board of education of the city, local, or exempted village school district within which the parcel or district is located have entered into a compensation agreement under section 5709.82 of the Revised Code with respect to the improvement and the board of education has approved the term of the exemption under division (D) of this section, but in no case shall the improvement be exempted from taxation for more than thirty years. The board of township trustees may, by majority vote, adopt a resolution permitting the township to enter into such agreements as the board finds necessary or appropriate to provide for the construction or undertaking of public infrastructure improvements and housing renovations. Any exemption shall be claimed and allowed in the same or a similar manner as in the case of other real property exemptions. If an exemption status changes during a tax year, the procedure for the apportionment of the taxes for that year is the same as in the case of other changes in tax exemption status during the year.

(H) The board of township trustees may issue the notes of the township to finance all costs pertaining to the construction or undertaking of public infrastructure improvements and housing renovations made pursuant to this section. The notes shall be signed by the board and attested by the signature of the township fiscal officer, shall bear interest not to exceed the rate provided in section 9.95 of the Revised Code, and are not subject to Chapter 133. of the Revised Code. The resolution authorizing the issuance of the notes shall pledge the funds of the township public improvement tax increment equivalent fund established pursuant to section 5709.75 of the Revised Code to pay the interest on and principal of the notes. The notes, which may contain a clause permitting prepayment at the option of the board, shall be offered for sale on the open market or given to the vendor or contractor if no sale is made.

(I) The township, not later than fifteen days after the adoption of a resolution under this section, shall submit to the director of development a copy of the resolution. On or before the thirty-first day of March of each year, the township shall submit a status report to the director of development. The report shall indicate, in the manner prescribed by the director, the progress of the project during each year that the exemption remains in effect, including a summary of the receipts from service payments in lieu of taxes; expenditures of money from the fund created under section 5709.75 of the Revised Code; a description of the public

(J) Nothing in this section shall be construed to prohibit a board of township trustees from declaring to be a public purpose improvements with respect to more than one parcel.

(K) A board of township trustees that adopted a resolution under this section prior to July 21, 1994, may amend that resolution to include any additional public infrastructure improvement. A board of township trustees that seeks by the amendment to utilize money from its township public improvement tax increment equivalent fund for land acquisition in aid of industry, commerce, distribution, or research, demolition on private property, or stormwater and flood remediation projects may do so provided that the board currently is a party to a hold-harmless agreement with the board of education of the city, local, or exempted village school district within the territory of which are located the parcels that are subject to an exemption. For the purposes of this division, a "hold-harmless agreement" means an agreement under which the board of township trustees agrees to compensate the school district for one hundred per cent of the tax revenue that the school district would have received from further improvements to parcels designated in the resolution were it not for the exemption granted by the resolution.

(L) With respect to improvements resulting from projects, for which construction commences on or after April 1, 2012, and on or before December 31, 2013, and for which an exemption has been or will be sought pursuant to a resolution adopted under this section before December 14, 2001, "property used or to be used for residential purposes," as used in division (A)(2) of this section, means only that property that, as improved, the tax commissioner would classify as residential land and improvements pursuant to rules adopted by the tax commissioner under section 5713.041 of the Revised Code.
