To enact section 5.2287 of the Revised Code to 1
designate the month of September as "Craniofacial 2
Acceptance Month." 3

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:

Section 1. That section 5.2287 of the Revised Code be enacted 4
to read as follows: 5

Sec. 5.2287. The month of September is designated as 6
"Craniofacial Acceptance Month" to increase public awareness of 7
craniofacial conditions and advances in medical treatment of these 8
conditions. 9

Section 2. In enacting section 5.2287 of the Revised Code, 10
the General Assembly hereby finds the following: 11

- (1) Approximately one hundred thousand children are born each 12
year in the United States with a craniofacial condition affecting 13
the child's head, neck, extremities, or organs. 14
- (2) Treatment of a craniofacial condition often lasts from 15
infancy to adulthood and it is not uncommon for a child to undergo 16
multiple surgeries before reaching adulthood. 17
- (3) Most craniofacial conditions affect individuals and their 18
families physically, mentally, and socially. 19
- (4) Many medical procedures have been developed in the past 20
thirty years to help improve the quality of life for individuals 21
affected by craniofacial conditions. 22
- (5) The number of physicians specializing in treating 23
craniofacial conditions is very small. 24
- (6) Many groups advocate on the behalf of individuals with 25
craniofacial conditions and encourage greater acceptance and 26
support of individuals with craniofacial conditions. 27
- (7) Ohio is a leader in the field of treating craniofacial 28
conditions. 29
