(C)(1)(a) In the case of a student receiving special education services under Chapter 3323. of the Revised Code, the individualized education program developed for the student under that chapter shall specify the manner in which the student will participate in the assessments administered

under this section. The individualized education program may excuse the student from taking any particular assessment required to be administered under this section if it instead specifies an alternate assessment method approved by the department of education as conforming to requirements of federal law for receipt of federal funds for disadvantaged pupils. To the extent possible, the individualized education program shall not excuse the student from taking an assessment unless no reasonable accommodation can be made to enable the student to take the assessment.

(b) Any alternate assessment approved by the department for a student under this division shall produce measurable results comparable to those produced by the assessment it replaces in order to allow for the student's results to be included in the data compiled for a school district or building under section 3302.03 of the Revised Code.

(c) Any student enrolled in a chartered nonpublic school who has been identified, based on an evaluation conducted in accordance with section 3323.03 of the Revised Code or section 504 of the "Rehabilitation Act of 1973," 87 Stat. 355, 29 U.S.C.A. 794, as amended, as a child with a disability shall be excused from taking any particular assessment required to be administered under this section if a plan developed for the student pursuant to rules adopted by the state board excuses the student from taking that assessment. In the case of any student so excused from taking an assessment, the chartered nonpublic school shall not prohibit the student from taking the assessment.

(2) A district board may, for medical reasons or other good cause, excuse a student from taking an assessment administered under this section on the date scheduled, but that assessment shall be administered to the excused student not later than nine days following the scheduled date. The district board shall annually report the number of students who have not taken one or more of the assessments required by this section to the state board of education not later than the thirtieth day of June.

(3) As used in this division, "limited English proficient student" has the same meaning as in 20 U.S.C. 7801.

No school district board shall excuse any limited English proficient student from taking any particular assessment required to be administered under this section, except that any limited English proficient student who has been enrolled in United States schools for less than one full school year shall not be required to take any reading, writing, or English language arts assessment. However, no board shall prohibit a limited English proficient student who is not required to take an assessment under this division from taking the assessment. A board may permit any limited English proficient

student to take an assessment required to be administered under this section with appropriate accommodations, as determined by the department. For each limited English proficient student, each school district shall annually assess that student's progress in learning English, in accordance with procedures approved by the department.

The governing authority of a chartered nonpublic school may excuse a limited English proficient student from taking any assessment administered under this section. However, no governing authority shall prohibit a limited English proficient student from taking the assessment.

(D)(1) In the school year next succeeding the school year in which the assessments prescribed by division (A)(1) or (B)(1) of section 3301.0710 of the Revised Code or former division (A)(1), (A)(2), or (B) of section 3301.0710 of the Revised Code as it existed prior to September 11, 2001, are administered to any student, the board of education of any school district in which the student is enrolled in that year shall provide to the student intervention services commensurate with the student's performance, including any intensive intervention required under section 3313.608 of the Revised Code, in any skill in which the student failed to demonstrate at least a score at the proficient level on the assessment.

(2) Following any administration of the assessments prescribed by division (D) of section 3301.0710 of the Revised Code to ninth grade students, each school district that has a three-year average graduation rate of not more than seventy-five per cent shall determine for each high school in the district whether the school shall be required to provide intervention services to any students who took the assessments. In determining which high schools shall provide intervention services based on the resources available, the district shall consider each school's graduation rate and scores on the practice assessments. The district also shall consider the scores received by ninth grade students on the English language arts and mathematics assessments prescribed under division (A)(1)(f) of section 3301.0710 of the Revised Code in the eighth grade in determining which high schools shall provide intervention services.

Each high school selected to provide intervention services under this division shall provide intervention services to any student whose results indicate that the student is failing to make satisfactory progress toward being able to attain scores at the proficient level on the Ohio graduation tests. Intervention services shall be provided in any skill in which a student demonstrates unsatisfactory progress and shall be commensurate with the student's performance. Schools shall provide the intervention services prior to the end of the school year, during the summer following the ninth grade,

in the next succeeding school year, or at any combination of those times.

(E) Except as provided in section 3313.608 of the Revised Code and division (M) of this section, no school district board of education shall utilize any student's failure to attain a specified score on an assessment administered under this section as a factor in any decision to deny the student promotion to a higher grade level. However, a district board may choose not to promote to the next grade level any student who does not take an assessment administered under this section or make up an assessment as provided by division (C)(2) of this section and who is not exempt from the requirement to take the assessment under division (C)(3) of this section.

(F) No person shall be charged a fee for taking any assessment administered under this section.

(G)(1) Each school district board shall designate one location for the collection of assessments administered in the spring under division (B)(1) of this section and those administered under divisions (B)(2) to (7) of this section. Each district board shall submit the assessments to the entity with which the department contracts for the scoring of the assessments as follows:

(a) If the district's total enrollment in grades kindergarten through twelve during the first full school week of October was less than two thousand five hundred, not later than the Friday after all of the assessments have been administered;

(b) If the district's total enrollment in grades kindergarten through twelve during the first full school week of October was two thousand five hundred or more, but less than seven thousand, not later than the Monday after all of the assessments have been administered;

(c) If the district's total enrollment in grades kindergarten through twelve during the first full school week of October was seven thousand or more, not later than the Tuesday after all of the assessments have been administered.

However, any assessment that a student takes during the make-up period described in division (C)(2) of this section shall be submitted not later than the Friday following the day the student takes the assessment.

(2) The department or an entity with which the department contracts for the scoring of the assessment shall send to each school district board a list of the individual scores of all persons taking an assessment prescribed by division (A)(1) or (B)(1) of section 3301.0710 of the Revised Code within sixty days after its administration, but in no case shall the scores be returned later than the fifteenth day of June following the administration. For assessments administered under this section by a joint vocational school

district, the department or entity shall also send to each city, local, or exempted village school district a list of the individual scores of any students of such city, local, or exempted village school district who are attending school in the joint vocational school district.

(H) Individual scores on any assessments administered under this section shall be released by a district board only in accordance with section 3319.321 of the Revised Code and the rules adopted under division (A) of this section. No district board or its employees shall utilize individual or aggregate results in any manner that conflicts with rules for the ethical use of assessments adopted pursuant to division (A) of this section.

(I) Except as provided in division (G) of this section, the department or an entity with which the department contracts for the scoring of the assessment shall not release any individual scores on any assessment administered under this section. The state board of ~~education~~ shall adopt rules to ensure the protection of student confidentiality at all times. The rules may require the use of the data verification codes assigned to students pursuant to division (D)(2) of section 3301.0714 of the Revised Code to protect the confidentiality of student scores.

(J) Notwithstanding division (D) of section 3311.52 of the Revised Code, this section does not apply to the board of education of any cooperative education school district except as provided under rules adopted pursuant to this division.

(1) In accordance with rules that the state board of ~~education~~ shall adopt, the board of education of any city, exempted village, or local school district with territory in a cooperative education school district established pursuant to divisions (A) to (C) of section 3311.52 of the Revised Code may enter into an agreement with the board of education of the cooperative education school district for administering any assessment prescribed under this section to students of the city, exempted village, or local school district who are attending school in the cooperative education school district.

If a parent or guardian submits an opt-out notice, the school shall not administer the assessments to that student. This option does not apply to any assessment required for a high school diploma under section 3313.612 of the Revised Code.

(b) If a chartered nonpublic school is educating students in grades nine through twelve, it shall administer the assessments prescribed by divisions (B)(1) and (2) of section 3301.0710 of the Revised Code as a condition of compliance with section 3313.612 of the Revised Code.

(d) Any chartered nonpublic school that is not subject to division (K)(1)(a) of this section may participate in the assessment program by administering any of the assessments prescribed by division (A) of section 3301.0710 of the Revised Code. The chief administrator of the school shall specify which assessments the school will administer. Such specification shall be made in writing to the superintendent of public instruction prior to the first day of August of any school year in which assessments are administered and shall include a pledge that the nonpublic school will administer the specified assessments in the same manner as public schools are required to do under this section and rules adopted by the department.

Field test questions and anchor questions may be included as part of the administration of any assessment required by division (A)(1) or (B) of section 3301.0710 and division (B) of section 3301.0712 of the Revised Code.

(b) For subsequent administrations of each assessment prior to the 2011-2012 school year, not less than forty per cent of the questions on the assessment that are used to compute a student's score shall be a public record. The department shall determine which questions will be needed for reuse on a future assessment and those questions shall not be public records and shall be redacted from the assessment prior to its release as a public record. However, for each redacted question, the department shall inform each city, local, and exempted village school district of the statewide academic standard adopted by the state board of education under section 3301.079 of the Revised Code and the corresponding benchmark to which the question relates. The preceding sentence does not apply to field test questions that are redacted under division (N)(3) of this section.

Ohioans must be prepared to apply increased knowledge and skills in the workplace and to adapt their knowledge and skills quickly to meet the rapidly changing conditions of the twenty-first century. National studies indicate that all high school graduates need the same academic foundation, regardless of the opportunities they pursue after graduation. The goal of Ohio's system of elementary and secondary education is to prepare all students for and seamlessly connect all students to success in life beyond high school graduation, regardless of whether the next step is entering the workforce, beginning an apprenticeship, engaging in post-secondary training, serving in the military, or pursuing a college degree.

The requirements for graduation prescribed in division (C) of this section are the standard expectation for all students entering ninth grade for the first time at a public or chartered nonpublic high school on or after July 1, 2010. A student may satisfy this expectation through a variety of methods, including, but not limited to, integrated, applied, career-technical, and traditional coursework.

Whereas teacher quality is essential for student success when completing the requirements for graduation, the general assembly shall appropriate funds for strategic initiatives designed to strengthen schools' capacities to hire and retain highly qualified teachers in the subject areas required by the curriculum. Such initiatives are expected to require an investment of \$120,000,000 over five years.

Stronger coordination between high schools and institutions of higher education is necessary to prepare students for more challenging academic endeavors and to lessen the need for academic remediation in college, thereby reducing the costs of higher education for Ohio's students, families, and the state. The state board and the chancellor of the Ohio board of regents shall develop policies to ensure that only in rare instances will students who complete the requirements for graduation prescribed in division (C) of this section require academic remediation after high school.

School districts, community schools, and chartered nonpublic schools shall integrate technology into learning experiences across the curriculum in order to maximize efficiency, enhance learning, and prepare students for success in the technology-driven twenty-first century. Districts and schools shall use distance and web-based course delivery as a method of providing

or augmenting all instruction required under this division, including laboratory experience in science. Districts and schools shall utilize technology access and electronic learning opportunities provided by the broadcast educational media commission, chancellor, the Ohio learning network, education technology centers, public television stations, and other public and private providers.

(D) Except as provided in division (E) of this section, a student who enters ninth grade on or after July 1, 2010, and before July 1, 2016, may qualify for graduation from a public or chartered nonpublic high school even though the student has not completed the requirements for graduation prescribed in division (C) of this section if all of the following conditions are satisfied:

(1) During the student's third year of attending high school, as determined by the school, the student and the student's parent, guardian, or custodian sign and file with the school a written statement asserting the parent's, guardian's, or custodian's consent to the student's graduating without completing the requirements for graduation prescribed in division (C) of this section and acknowledging that one consequence of not completing those requirements is ineligibility to enroll in most state universities in Ohio without further coursework.

(2) The student and parent, guardian, or custodian fulfill any procedural requirements the school stipulates to ensure the student's and parent's, guardian's, or custodian's informed consent and to facilitate orderly filing of statements under division (D)(1) of this section. Annually, each district or school shall notify the department of education of the number of students who choose to qualify for graduation under division (D) of this section and the number of students who complete the student's success plan and graduate from high school.

(3) The student and the student's parent, guardian, or custodian and a representative of the student's high school jointly develop a student success plan for the student in the manner described in division (C)(1) of section 3313.6020 of the Revised Code that specifies the student matriculating to a two-year degree program, acquiring a business and industry-recognized credential, or entering an apprenticeship.

(4) The student's high school provides counseling and support for the student related to the plan developed under division (D)(3) of this section during the remainder of the student's high school experience.

(5)(a) Except as provided in division (D)(5)(b) of this section, the student successfully completes, at a minimum, the curriculum prescribed in division (B) of this section.

(b) Beginning with students who enter ninth grade for the first time on or after July 1, 2014, a student shall be required to complete successfully, at the minimum, the curriculum prescribed in division (B) of this section, except as follows:

(i) Mathematics, four units, one unit which shall be one of the following:

(I) Probability and statistics;

(II) Computer programming;

(III) Applied mathematics or quantitative reasoning;

(IV) Any other course approved by the department using standards established by the superintendent not later than October 1, 2014.

(ii) Elective units, five units;

(iii) Science, three units as prescribed by division (B) of this section which shall include inquiry-based laboratory experience that engages students in asking valid scientific questions and gathering and analyzing information.

The department, in collaboration with the chancellor, shall analyze student performance data to determine if there are mitigating factors that warrant extending the exception permitted by division (D) of this section to high school classes beyond those entering ninth grade before July 1, 2016. The department shall submit its findings and any recommendations not later than December 1, 2015, to the speaker and minority leader of the house of representatives, the president and minority leader of the senate, the chairpersons and ranking minority members of the standing committees of the house of representatives and the senate that consider education legislation, the state board of education, and the superintendent of public instruction.

(E) Each school district and chartered nonpublic school retains the authority to require an even more challenging minimum curriculum for high school graduation than specified in division (B) or (C) of this section. A school district board of education, through the adoption of a resolution, or the governing authority of a chartered nonpublic school may stipulate any of the following:

(1) A minimum high school curriculum that requires more than twenty units of academic credit to graduate;

(2) An exception to the district's or school's minimum high school curriculum that is comparable to the exception provided in division (D) of this section but with additional requirements, which may include a requirement that the student successfully complete more than the minimum curriculum prescribed in division (B) of this section;

(3) That no exception comparable to that provided in division (D) of this section is available.

(F) A student enrolled in a dropout prevention and recovery program, which program has received a waiver from the department, may qualify for graduation from high school by successfully completing a competency-based instructional program administered by the dropout prevention and recovery program in lieu of completing the requirements for graduation prescribed in division (C) of this section. The department shall grant a waiver to a dropout prevention and recovery program, within sixty days after the program applies for the waiver, if the program meets all of the following conditions:

(1) The program serves only students not younger than sixteen years of age and not older than twenty-one years of age.

(2) The program enrolls students who, at the time of their initial enrollment, either, or both, are at least one grade level behind their cohort age groups or experience crises that significantly interfere with their academic progress such that they are prevented from continuing their traditional programs.

(3) The program requires students to attain at least the applicable score designated for each of the assessments prescribed under division (B)(1) of section 3301.0710 of the Revised Code or, to the extent prescribed by rule of the state board under division (D)(5) of section 3301.0712 of the Revised Code, division (B)(2) of that section.

(4) The program develops a student success plan for the student in the manner described in division (C)(1) of section 3313.6020 of the Revised Code that specifies the student's matriculating to a two-year degree program, acquiring a business and industry-recognized credential, or entering an apprenticeship.

(5) The program provides counseling and support for the student related to the plan developed under division (F)(4) of this section during the remainder of the student's high school experience.

(6) The program requires the student and the student's parent, guardian, or custodian to sign and file, in accordance with procedural requirements stipulated by the program, a written statement asserting the parent's, guardian's, or custodian's consent to the student's graduating without completing the requirements for graduation prescribed in division (C) of this section and acknowledging that one consequence of not completing those requirements is ineligibility to enroll in most state universities in Ohio without further coursework.

(7) Prior to receiving the waiver, the program has submitted to the

department an instructional plan that demonstrates how the academic content standards adopted by the state board under section 3301.079 of the Revised Code will be taught and assessed.

(8) Prior to receiving the waiver, the program has submitted to the department a policy on career advising that satisfies the requirements of section 3313.6020 of the Revised Code, with an emphasis on how every student will receive career advising.

(9) Prior to receiving the waiver, the program has submitted to the department a written agreement outlining the future cooperation between the program and any combination of local job training, postsecondary education, nonprofit, and health and social service organizations to provide services for students in the program and their families.

Divisions (F)(8) and (9) of this section apply only to waivers granted on or after July 1, 2015.

If the department does not act either to grant the waiver or to reject the program application for the waiver within sixty days as required under this section, the waiver shall be considered to be granted.

(G) Every high school may permit students below the ninth grade to take advanced work. If a high school so permits, it shall award high school credit for successful completion of the advanced work and shall count such advanced work toward the graduation requirements of division (B) or (C) of this section if the advanced work was both:

(1) Taught by a person who possesses a license or certificate issued under section 3301.071, 3319.22, or 3319.222 of the Revised Code that is valid for teaching high school;

(2) Designated by the board of education of the city, local, or exempted village school district, the board of the cooperative education school district, or the governing authority of the chartered nonpublic school as meeting the high school curriculum requirements.

Each high school shall record on the student's high school transcript all high school credit awarded under division (G) of this section. In addition, if the student completed a seventh- or eighth-grade fine arts course described in division (K) of this section and the course qualified for high school credit under that division, the high school shall record that course on the student's high school transcript.

(H) The department shall make its individual academic career plan available through its Ohio career information system web site for districts and schools to use as a tool for communicating with and providing guidance to students and families in selecting high school courses.

(I) Units earned in English language arts, mathematics, science, and

social studies that are delivered through integrated academic and career-technical instruction are eligible to meet the graduation requirements of division (B) or (C) of this section.

(J) The state board, in consultation with the chancellor, shall adopt a statewide plan implementing methods for students to earn units of high school credit based on a demonstration of subject area competency, instead of or in combination with completing hours of classroom instruction. The state board shall adopt the plan not later than March 31, 2009, and commence phasing in the plan during the 2009-2010 school year. The plan shall include a standard method for recording demonstrated proficiency on high school transcripts. Each school district and community school shall comply with the state board's plan adopted under this division and award units of high school credit in accordance with the plan. The state board may adopt existing methods for earning high school credit based on a demonstration of subject area competency as necessary prior to the 2009-2010 school year.

(K) This division does not apply to students who qualify for graduation from high school under division (D) or (F) of this section, or to students pursuing a career-technical instructional track as determined by the school district board of education or the chartered nonpublic school's governing authority. Nevertheless, the general assembly encourages such students to consider enrolling in a fine arts course as an elective.

Beginning with students who enter ninth grade for the first time on or after July 1, 2010, each student enrolled in a public or chartered nonpublic high school shall complete two semesters or the equivalent of fine arts to graduate from high school. The coursework may be completed in any of grades seven to twelve. Each student who completes a fine arts course in grade seven or eight may elect to count that course toward the five units of electives required for graduation under division (C)(8) of this section, if the course satisfied the requirements of division (G) of this section. In that case, the high school shall award the student high school credit for the course and count the course toward the five units required under division (C)(8) of this section. If the course in grade seven or eight did not satisfy the requirements of division (G) of this section, the high school shall not award the student high school credit for the course but shall count the course toward the two semesters or the equivalent of fine arts required by this division.

(L) Notwithstanding anything to the contrary in this section, the board of education of each school district and the governing authority of each chartered nonpublic school may adopt a policy to excuse from the high school physical education requirement each student who, during high

school, has participated in interscholastic athletics, marching band, or cheerleading for at least two full seasons or in the junior reserve officer training corps for at least two full school years. If the board or authority adopts such a policy, the board or authority shall not require the student to complete any physical education course as a condition to graduate. However, the student shall be required to complete one-half unit, consisting of at least sixty hours of instruction, in another course of study. In the case of a student who has participated in the junior reserve officer training corps for at least two full school years, credit received for that participation may be used to satisfy the requirement to complete one-half unit in another course of study.

(M) It is important that high school students learn and understand United States history and the governments of both the United States and the state of Ohio. Therefore, beginning with students who enter ninth grade for the first time on or after July 1, 2012, the study of American history and American government required by divisions (B)(6) and (C)(6) of this section shall include the study of all of the following documents:

- (1) The Declaration of Independence;
- (2) The Northwest Ordinance;
- (3) The Constitution of the United States with emphasis on the Bill of Rights;
- (4) The Ohio Constitution.

The study of each of the documents prescribed in divisions (M)(1) to (4) of this section shall include study of that document in its original context.

The study of American history and government required by divisions (B)(6) and (C)(6) of this section shall include the historical evidence of the role of documents such as the Federalist Papers and the Anti-Federalist Papers to firmly establish the historical background leading to the establishment of the provisions of the Constitution and Bill of Rights.

Sec. 3313.608. (A)(1) Beginning with students who enter third grade in the school year that starts July 1, 2009, and until June 30, 2013, unless the student is excused under division (C) of section 3301.0711 of the Revised Code from taking the assessment described in this section, for any student who does not attain at least the equivalent level of achievement designated under division (A)(3) of section 3301.0710 of the Revised Code on the assessment prescribed under that section to measure skill in English language arts expected at the end of third grade, each school district, in accordance with the policy adopted under section 3313.609 of the Revised Code, shall do one of the following:

- (a) Promote the student to fourth grade if the student's principal and

reading teacher agree that other evaluations of the student's skill in reading demonstrate that the student is academically prepared to be promoted to fourth grade;

(b) Promote the student to fourth grade but provide the student with intensive intervention services in fourth grade;

(c) Retain the student in third grade.

(2) Beginning with students who enter third grade in the 2013-2014 school year, unless the student is excused under division (C) of section 3301.0711 of the Revised Code from taking the assessment described in this section, no school district shall promote to fourth grade any student who does not attain at least the equivalent level of achievement designated under division (A)(3) of section 3301.0710 of the Revised Code on the assessment prescribed under that section to measure skill in English language arts expected at the end of third grade, unless one of the following applies:

(a) The student is a limited English proficient student who has been enrolled in United States schools for less than three full school years and has had less than three years of instruction in an English as a second language program.

(b) The student is a child with a disability entitled to special education and related services under Chapter 3323. of the Revised Code and the student's individualized education program exempts the student from retention under this division.

(c) The student demonstrates an acceptable level of performance on an alternative standardized reading assessment as determined by the department of education.

(d) All of the following apply:

(i) The student is a child with a disability entitled to special education and related services under Chapter 3323. of the Revised Code.

(ii) The student has taken the third grade English language arts achievement assessment prescribed under section 3301.0710 of the Revised Code.

(iii) The student's individualized education program or plan under section 504 of the "Rehabilitation Act of 1973," 87 Stat. 355, 29 U.S.C. 794, as amended, shows that the student has received intensive remediation in reading for two school years but still demonstrates a deficiency in reading.

(iv) The student previously was retained in any of grades kindergarten to three.

(e)(i) The student received intensive remediation for reading for two school years but still demonstrates a deficiency in reading and was previously retained in any of grades kindergarten to three.

(ii) A student who is promoted under division (A)(2)(e)(i) of this section shall continue to receive intensive reading instruction in grade four. The instruction shall include an altered instructional day that includes specialized diagnostic information and specific research-based reading strategies for the student that have been successful in improving reading among low-performing readers.

(B)(1) Beginning in the 2012-2013 school year, to assist students in meeting the third grade guarantee established by this section, each school district board of education shall adopt policies and procedures with which it annually shall assess the reading skills of each student, except those students with significant cognitive disabilities or other disabilities as authorized by the department on a case-by-case basis, enrolled in kindergarten to third grade ~~by the thirtieth day of September~~ and shall identify students who are reading below their grade level. Each district shall use the diagnostic assessment to measure reading ability for the appropriate grade level adopted under section 3301.079 of the Revised Code, or a comparable tool approved by the department of education, to identify such students. The policies and procedures shall require the students' classroom teachers to be involved in the assessment and the identification of students reading below grade level.

(2) For each student identified by the diagnostic assessment prescribed under this section as having reading skills below grade level, the district shall do both of the following:

(a) Provide to the student's parent or guardian, in writing, all of the following:

(i) Notification that the student has been identified as having a substantial deficiency in reading;

(ii) A description of the current services that are provided to the student;

(iii) A description of the proposed supplemental instructional services and supports that will be provided to the student that are designed to remediate the identified areas of reading deficiency;

(iv) Notification that if the student attains a score in the range designated under division (A)(3) of section 3301.0710 of the Revised Code on the assessment prescribed under that section to measure skill in English language arts expected at the end of third grade, the student shall be retained unless the student is exempt under division (A) of this section. The notification shall specify that the assessment under section 3301.0710 of the Revised Code is not the sole determinant of promotion and that additional evaluations and assessments are available to the student to assist parents and the district in knowing when a student is reading at or above grade level and

ready for promotion.

(b) Provide intensive reading instruction services and regular diagnostic assessments to the student immediately following identification of a reading deficiency until the development of the reading improvement and monitoring plan required by division (C) of this section. These intervention services shall include research-based reading strategies that have been shown to be successful in improving reading among low-performing readers and instruction targeted at the student's identified reading deficiencies.

(3) For each student retained under division (A) of this section, the district shall do all of the following:

(a) Provide intense remediation services until the student is able to read at grade level. The remediation services shall include intensive interventions in reading that address the areas of deficiencies identified under this section including, but not limited to, not less than ninety minutes of reading instruction per day, and may include any of the following:

- (i) Small group instruction;
- (ii) Reduced teacher-student ratios;

(c) Provide each student with a teacher who satisfies one or more of the criteria set forth in division (H) of this section.

The district shall offer the option for students to receive applicable services from one or more providers other than the district. Providers shall be screened and approved by the district or the department of education. If the student participates in the remediation services and demonstrates reading proficiency in accordance with standards adopted by the department prior to the start of fourth grade, the district shall promote the student to that grade.

(4) For each student retained under division (A) of this section who has demonstrated proficiency in a specific academic ability field, each district shall provide instruction commensurate with student achievement levels in that specific academic ability field.

As used in this division, "specific academic ability field" has the same meaning as in section 3324.01 of the Revised Code.

(C) For each student required to be provided intervention services under

this section, the district shall develop a reading improvement and monitoring plan within sixty days after receiving the student's results on the diagnostic assessment or comparable tool administered under division (B)(1) of this section. The district shall involve the student's parent or guardian and classroom teacher in developing the plan. The plan shall include all of the following:

- (1) Identification of the student's specific reading deficiencies;
- (2) A description of the additional instructional services and support that will be provided to the student to remediate the identified reading deficiencies;
- (3) Opportunities for the student's parent or guardian to be involved in the instructional services and support described in division (C)(2) of this section;
- (4) A process for monitoring the extent to which the student receives the instructional services and support described in division (C)(2) of this section;

Each student with a reading improvement and monitoring plan under this division who enters third grade after July 1, 2013, shall be assigned to a teacher who satisfies one or more of the criteria set forth in division (H) of this section.

The district shall report any information requested by the department about the reading improvement monitoring plans developed under this division in the manner required by the department.

(D) Each school district shall report annually to the department on its implementation and compliance with this section using guidelines prescribed by the superintendent of public instruction. The superintendent of public instruction annually shall report to the governor and general assembly the number and percentage of students in grades kindergarten through four reading below grade level based on the diagnostic assessments administered

under division (B) of this section and the achievement assessments administered under divisions (A)(1)(a) and (b) of section 3301.0710 of the Revised Code in English language arts, aggregated by school district and building; the types of intervention services provided to students; and, if available, an evaluation of the efficacy of the intervention services provided.

(E) Any summer remediation services funded in whole or in part by the state and offered by school districts to students under this section shall meet the following conditions:

(1) The remediation methods are based on reliable educational research.

(2) The school districts conduct assessment before and after students participate in the program to facilitate monitoring results of the remediation services.

(3) The parents of participating students are involved in programming decisions.

(F) Any intervention or remediation services required by this section shall include intensive, explicit, and systematic instruction.

(G) This section does not create a new cause of action or a substantive legal right for any person.

(H)(1) Except as provided under divisions (H)(2), (3), and (4) of this section, each student described in division (B)(3) or (C) of this section who enters third grade for the first time on or after July 1, 2013, shall be assigned a teacher who has at least one year of teaching experience and who satisfies one or more of the following criteria:

(a) The teacher holds a reading endorsement on the teacher's license and has attained a passing score on the corresponding assessment for that endorsement, as applicable.

(b) The teacher has completed a master's degree program with a major in reading.

(c) The teacher was rated "most effective" for reading instruction consecutively for the most recent two years based on assessments of student growth measures developed by a vendor and that is on the list of student assessments approved by the state board under division (B)(2) of section 3319.112 of the Revised Code.

(d) The teacher was rated "above expected value added," in reading instruction, as determined by criteria established by the department, for the most recent, consecutive two years.

(e) The teacher has earned a passing score on a rigorous test of principles of scientifically research-based reading instruction as approved by the state board.

(f) The teacher holds an educator license for teaching grades

pre-kindergarten through three or four through nine issued on or after July 1, 2017.

(2) Notwithstanding division (H)(1) of this section, a student described in division (B)(3) or (C) of this section who enters third grade for the first time on or after July 1, 2013, may be assigned to a teacher with less than one year of teaching experience provided that the teacher meets one or more of the criteria described in divisions (H)(1)(a) to (f) of this section and that teacher is assigned a teacher mentor who meets the qualifications of division (H)(1) of this section.

(3) Notwithstanding division (H)(1) of this section, a student described in division (B)(3) or (C) of this section who enters third grade for the first time on or after July 1, 2013, but prior to July 1, 2016, may be assigned to a teacher who holds an alternative credential approved by the department or who has successfully completed training that is based on principles of scientifically research-based reading instruction that has been approved by the department. Beginning on July 1, 2014, the alternative credentials and training described in division (H)(3) of this section shall be aligned with the reading competencies adopted by the state board of education under section 3301.077 of the Revised Code.

(4) Notwithstanding division (H)(1) of this section, a student described in division (B)(3) or (C) of this section who enters third grade for the first time on or after July 1, 2013, may receive reading intervention or remediation services under this section from an individual employed as a speech-language pathologist who holds a license issued by the board of speech-language pathology and audiology under Chapter 4753. of the Revised Code and a professional pupil services license as a school speech-language pathologist issued by the state board of education.

(5) A teacher, other than a student's teacher of record, may provide any services required under this section, so long as that other teacher meets the requirements of division (H) of this section and the teacher of record and the school principal agree to the assignment. Any such assignment shall be documented in the student's reading improvement and monitoring plan.

As used in this division, "teacher of record" means the classroom teacher to whom a student is assigned.

(I) Notwithstanding division (H) of this section, a teacher may teach reading to any student who is an English language learner, and has been in the United States for three years or less, or to a student who has an individualized education program developed under Chapter 3323. of the Revised Code if that teacher holds an alternative credential approved by the department or has successfully completed training that is based on principles

of scientifically research-based reading instruction that has been approved by the department. Beginning on July 1, 2014, the alternative credentials and training described in this division shall be aligned with the reading competencies adopted by the state board of education under section 3301.077 of the Revised Code.

(J) If, on or after ~~the effective date of this amendment~~ June 4, 2013, a school district or community school cannot furnish the number of teachers needed who satisfy one or more of the criteria set forth in division (H) of this section for the 2013-2014 school year, the school district or community school shall develop and submit a staffing plan by June 30, 2013. The staffing plan shall include criteria that will be used to assign a student described in division (B)(3) or (C) of this section to a teacher, credentials or training held by teachers currently teaching at the school, and how the school district or community school will meet the requirements of this section. The school district or community school shall post the staffing plan on its web site for the applicable school year.

Not later than March 1, 2014, and on the first day of March in each year thereafter, a school district or community school that has submitted a plan under this division shall submit to the department a detailed report of the progress the district or school has made in meeting the requirements under this section.

A school district or community school may request an extension of a staffing plan beyond the 2013-2014 school year. Extension requests must be submitted to the department not later than the thirtieth day of April prior to the start of the applicable school year. The department may grant extensions valid through the 2015-2016 school year.

Until June 30, 2015, the department annually shall review all staffing plans and report to the state board not later than the thirtieth day of June of each year the progress of school districts and community schools in meeting the requirements of this section.

(K) The department of education shall designate one or more staff members to provide guidance and assistance to school districts and community schools in implementing the third grade guarantee established by this section, including any standards or requirements adopted to implement the guarantee and to provide information and support for reading instruction and achievement.

Sec. 3313.618. (A) In addition to the applicable curriculum requirements, each student entering ninth grade for the first time on or after July 1, 2014, shall satisfy at least one of the following conditions in order to qualify for a high school diploma:

(2) Attain a score specified under division (B)(5)(c) of section 3301.0712 of the Revised Code on the end-of-course examinations prescribed under division (B) of section 3301.0712 of the Revised Code. ~~For any student who is exempt from taking an end-of-course examination under division (B)(6) of section 3301.0712 of the Revised Code, in determining whether that student has attained the cumulative score prescribed by division (B)(5)(c) of that section, that student shall be considered to have attained a proficient score on the exempted examination.~~

(3) Attain a score that demonstrates workforce readiness and employability on a nationally recognized job skills assessment selected by the state board of education under division (G) of section 3301.0712 of the Revised Code and obtain either an industry-recognized credential, as described under division (B)(2)(d) of section 3302.03 of the Revised Code, or a license issued by a state agency or board for practice in a vocation that requires an examination for issuance of that license.

The state board shall approve the industry-recognized credentials and licenses that may qualify a student for a high school diploma under division (A)(3) of this section.

A student may choose to qualify for a high school diploma by satisfying any of the separate requirements prescribed by divisions (A)(1) to (3) of this section. If the student's school district or school does not administer the examination prescribed by one of those divisions that the student chooses to take to satisfy the requirements of this section, the school district or school may require that student to arrange for the applicable scores to be sent directly to the district or school by the company or organization that administers the examination.

(B) The state board of education shall not create or require any additional assessment for the granting of any type of high school diploma other than as prescribed by this section. The state board shall not create any endorsement or designation that may be affiliated with a high school diploma.

Sec. 3313.672. (A)(1) At the time of initial entry to a public or nonpublic school, a pupil shall present to the person in charge of admission any records given the pupil by the public or nonpublic elementary or secondary school the pupil most recently attended; a certified copy of an order or decree, or modification of such an order or decree allocating parental rights and responsibilities for the care of a child and designating a

residential parent and legal custodian of the child, as provided in division (B) of this section, if that type of order or decree has been issued; a copy of a power of attorney or caretaker authorization affidavit, if either has been executed with respect to the child pursuant to sections 3109.51 to 3109.80 of the Revised Code; and a certification of birth issued pursuant to Chapter 3705. of the Revised Code, a comparable certificate or certification issued pursuant to the statutes of another state, territory, possession, or nation, or a document in lieu of a certificate or certification as described in divisions (A)(1)(a) to (e) of this section. Any of the following shall be accepted in lieu of a certificate or certification of birth by the person in charge of admission:

(b) An attested transcript of the certificate of birth;

(c) An attested transcript of the certificate of baptism or other religious record showing the date and place of birth of the child;

(d) An attested transcript of a hospital record showing the date and place of birth of the child;

(e) A birth affidavit.

(2) If a pupil requesting admission to a school of the school district in which the pupil is entitled to attend school under section 3313.64 or 3313.65 of the Revised Code has been discharged or released from the custody of the department of youth services under section 5139.51 of the Revised Code just prior to requesting admission to the school, no school official shall admit that pupil until the records described in divisions (D)(4)(a) to (d) of section 2152.18 of the Revised Code have been received by the superintendent of the school district.

(3) No public or nonpublic school official shall deny a protected child admission to the school solely because the child does not present a birth certificate described in division (A)(1) of this section, a comparable certificate or certification from another state, territory, possession, or nation, or another document specified in divisions (A)(1)(a) to (e) of this section upon registration for entry into the school. However, the protected child, or the parent, custodian, or guardian of that child, shall present a birth certificate or other document specified in divisions (A)(1)(a) to (e) of this section to the person in charge of admission of the school within ninety days after the child's initial entry into the school.

(4) Except as otherwise provided in division (A)(2) or (3) of this section, within twenty-four hours of the entry into the school of a pupil described in division (A)(1) of this section, a school official shall request the

pupil's official records from the public or nonpublic elementary or secondary school the pupil most recently attended. If the public or nonpublic school the pupil claims to have most recently attended indicates that it has no record of the pupil's attendance or the records are not received within fourteen days of the date of request, or if the pupil does not present a certification of birth described in division (A)(1) of this section, a comparable certificate or certification from another state, territory, possession, or nation, or another document specified in divisions (A)(1)(a) to (e) of this section, the principal or chief administrative officer of the school shall notify the law enforcement agency having jurisdiction in the area where the pupil resides of this fact and of the possibility that the pupil may be a missing child, as defined in section 2901.30 of the Revised Code.

(B)(1) Whenever an order or decree allocating parental rights and responsibilities for the care of a child and designating a residential parent and legal custodian of the child, including a temporary order, is issued resulting from an action of divorce, alimony, annulment, or dissolution of marriage, and the order or decree pertains to a child who is a pupil in a public or nonpublic school, the residential parent of the child shall notify the school of those allocations and designations by providing the person in charge of admission at the pupil's school with a certified copy of the order or decree that made the allocation and designation. Whenever there is a modification of any order or decree allocating parental rights and responsibilities for the care of a child and designating a residential parent and legal custodian of the child that has been submitted to a school, the residential parent shall provide the person in charge of admission at the pupil's school with a certified copy of the order or decree that makes the modification.

(2) Whenever a power of attorney is executed under sections 3109.51 to 3109.62 of the Revised Code that pertains to a child who is a pupil in a public or nonpublic school, the attorney in fact shall notify the school of the power of attorney by providing the person in charge of admission with a copy of the power of attorney. Whenever a caretaker authorization affidavit is executed under sections 3109.64 to 3109.73 of the Revised Code that pertains to a child who is in a public or nonpublic school, the grandparent who executed the affidavit shall notify the school of the affidavit by providing the person in charge of admission with a copy of the affidavit.

(C) If, at the time of a pupil's initial entry to a public or nonpublic school, the pupil is under the care of a shelter for victims of domestic violence, as defined in section 3113.33 of the Revised Code, the pupil or the pupil's parent shall notify the school of that fact. Upon being so informed,

the school shall inform the elementary or secondary school from which it requests the pupil's records of that fact.

(D) Whenever a public or nonpublic school is notified by a law enforcement agency pursuant to division (D) of section 2901.30 of the Revised Code that a missing child report has been filed regarding a pupil who is currently or was previously enrolled in the school, the person in charge of admission at the school shall mark that pupil's records in such a manner that whenever a copy of or information regarding the records is requested, any school official responding to the request is alerted to the fact that the records are those of a missing child. Upon any request for a copy of or information regarding a pupil's records that have been so marked, the person in charge of admission immediately shall report the request to the law enforcement agency that notified the school that the pupil is a missing child. When forwarding a copy of or information from the pupil's records in response to a request, the person in charge of admission shall do so in such a way that the receiving district or school would be unable to discern that the pupil's records are marked pursuant to this division but shall retain the mark in the pupil's records until notified that the pupil is no longer a missing child. Upon notification by a law enforcement agency that a pupil is no longer a missing child, the person in charge of admission shall remove the mark from the pupil's records in such a way that if the records were forwarded to another district or school, the receiving district or school would be unable to discern that the records were ever marked.

Two or more school districts may unite and employ one such physician and at least one such dentist whose duties shall be such as are prescribed by law. Said school physician shall hold a license to practice medicine in Ohio, and each school dentist shall be licensed to practice in this state. School physicians and dentists may be discharged at any time by the board of education. School physicians and dentists shall serve one year and until their successors are appointed and shall receive such compensation as the board of education determines. The board of

education may also employ registered nurses, as defined by section 4723.01 and licensed as school nurses under section ~~3319.22~~ 3319.221 of the Revised Code, to aid in such inspection in such ways as are prescribed by it, and to aid in the conduct and coordination of the school health service program. The school dentists shall make such examinations and diagnoses and render such remedial or corrective treatment for the school children as is prescribed by the board of education; provided that all such remedial or corrective treatment shall be limited to the children whose parents cannot otherwise provide for same, and then only with the written consent of the parents or guardians of such children. School dentists may also conduct such oral hygiene educational work as is authorized by the board of education.

The board of education may delegate the duties and powers provided for in this section to the board of health or officer performing the functions of a board of health within the school district, if such board or officer is willing to assume the same. Boards of education shall co-operate with boards of health in the prevention and control of epidemics.

(B) Notwithstanding any provision of the Revised Code to the contrary, the board of education of each city, exempted village, or local school district may contract with an educational service center for the services of a school nurse, licensed under section 3319.221 of the Revised Code, or of a registered nurse or licensed practical nurse, licensed under Chapter 4723. of the Revised Code, to provide services to students in the district pursuant to section 3313.7112 of the Revised Code.

Additionally, except as otherwise provided in this section, admission to the school may be open on a tuition basis to any individual age five to twenty-two who is not a resident of this state. The school shall not receive state funds under section 3314.08 of the Revised Code for any student who is not a resident of this state.

An individual younger than five years of age may be admitted to the school in accordance with division (A)(2) of section 3321.01 of the Revised Code. The school shall receive funds for an individual admitted under that division in the manner provided under section 3314.08 of the Revised Code.

If the school operates a program that uses the Montessori method

endorsed by the American Montessori society, the Montessori accreditation council for teacher education, or the association Montessori internationale as its primary method of instruction, admission to the school may be open to individuals younger than five years of age, but the school shall not receive funds under this chapter for those individuals. Notwithstanding anything to the contrary in this chapter, individuals younger than five years of age who are enrolled in a Montessori program shall be offered at least four hundred fifty-five hours of learning opportunities per school year.

The effectiveness of the program shall be evaluated and reported to the Department of Education in a study that includes statistics on program participants' scores for the "Get It, Got It, Go!" assessment and the kindergarten readiness assessment.

The Department of Education shall distribute the remainder of the foregoing appropriation item 200408, Early Childhood Education, to pay the costs of early childhood education programs. The Department shall distribute such funds directly to qualifying providers.

(b) In the case of a community school, "new eligible provider" means a community school that operates a program that uses the Montessori method endorsed by the American Montessori society, the Montessori accreditation council for teacher education, or the association Montessori internationale as its primary method of instruction, as authorized by division (A) of section 3314.06 of the Revised Code, that did not receive state funding for Early Childhood Education in the previous fiscal year or demonstrates a need for early childhood programs as defined in division (D) of this section.

(3) "Eligible child" means a child who is at least three years of age as of the district entry date for kindergarten, is not of the age to be eligible for kindergarten, and whose family earns not more than two hundred per cent of the federal poverty guidelines as defined in division (A)(3) of section 5101.46 of the Revised Code. Children with an Individualized Education Program and where the Early Childhood Education program is the least restrictive environment may be enrolled on their third birthday.

(4) "Early learning program standards" means early learning program standards for school readiness developed by the Department to assess the operation of early learning programs.

(B) In each fiscal year, up to two per cent of the total appropriation may be used by the Department for program support and technical assistance. The Department shall distribute the remainder of the appropriation in each fiscal year to serve eligible children.

(C) The Department shall provide an annual report to the Governor, the Speaker of the House of Representatives, and the President of the Senate and post the report to the Department's web site, regarding early childhood education programs operated under this section and the early learning program standards.

(D) After setting aside the amounts to make payments due from the previous fiscal year, in fiscal year 2014, the Department shall distribute funds first to recipients of funds for early childhood education programs under Section 267.10.10 of Am. Sub. H.B. 153 of the 129th General Assembly, as amended by Am. Sub. H.B. 487 of the 129th General Assembly, in the previous fiscal year and the balance to new eligible providers of early childhood education programs under this section or to existing providers to serve more eligible children or for purposes of program expansion, improvement, or special projects to promote quality and innovation.

After setting aside the amounts to make payments due from the previous fiscal year, in fiscal year 2015, the Department shall distribute funds first to providers of early childhood education programs under this section in the

previous fiscal year and the balance to new eligible providers or to existing providers to serve more eligible children as outlined under division (E) of this section or for purposes of program expansion, improvement, or special projects to promote quality and innovation.

(E) The Department shall distribute any new or remaining funding to existing providers of early childhood education programs or any new eligible providers in an effort to invest in high quality early childhood programs where there is a need as determined by the Department. The Department shall distribute the new or remaining funds to existing providers of early childhood education programs or any new eligible providers to serve additional eligible children based on community economic disadvantage, limited access to high quality preschool or childcare services, and demonstration of high quality preschool services as determined by the Department using new metrics developed pursuant to Ohio's Race to the Top—Early Learning Challenge Grant, awarded to the Department in December 2011.

Awards under divisions (D) and (E) of this section shall be distributed on a per-pupil basis, and in accordance with division (I) of this section. The Department may adjust the per-pupil amount so that the per-pupil amount multiplied by the number of eligible children enrolled and receiving services on the first day of December or the business day closest to that date equals the amount allocated under this section.

(F) Costs for developing and administering an early childhood education program may not exceed fifteen per cent of the total approved costs of the program.

All providers shall maintain such fiscal control and accounting procedures as may be necessary to ensure the disbursement of, and accounting for, these funds. The control of funds provided in this program, and title to property obtained, shall be under the authority of the approved provider for purposes provided in the program unless, as described in division (K) of this section, the program waives its right for funding or a program's funding is eliminated or reduced due to its inability to meet financial or early learning program standards. The approved provider shall administer and use such property and funds for the purposes specified.

(G) The Department may examine a provider's financial and program records. If the financial practices of the program are not in accordance with standard accounting principles or do not meet financial standards outlined under division (F) of this section, or if the program fails to substantially meet the early learning program standards, meet a quality rating level in the tiered quality rating and improvement system developed under section

5104.30 of the Revised Code as prescribed by the Department, or exhibits below average performance as measured against the standards, the early childhood education program shall propose and implement a corrective action plan that has been approved by the Department. The approved corrective action plan shall be signed by the chief executive officer and the executive of the official governing body of the provider. The corrective action plan shall include a schedule for monitoring by the Department. Such monitoring may include monthly reports, inspections, a timeline for correction of deficiencies, and technical assistance to be provided by the Department or obtained by the early childhood education program. The Department may withhold funding pending corrective action. If an early childhood education program fails to satisfactorily complete a corrective action plan, the Department may deny expansion funding to the program or withdraw all or part of the funding to the program and establish a new eligible provider through a selection process established by the Department.

(H)(1) If the early childhood education program is licensed by the Department of Education and is not highly rated, as determined by the Director of Job and Family Services, under the tiered quality rating and improvement system described in section 5104.30 of the Revised Code, the program shall do all of the following:

(a) Meet teacher qualification requirements prescribed by section 3301.311 of the Revised Code;

(b) Align curriculum to the early learning content standards developed by the Department;

(c) Meet any child or program assessment requirements prescribed by the Department;

(d) Require teachers, except teachers enrolled and working to obtain a degree pursuant to section 3301.311 of the Revised Code, to attend a minimum of twenty hours every two years of professional development as prescribed by the Department;

(e) Document and report child progress as prescribed by the Department;

(f) Meet and report compliance with the early learning program standards as prescribed by the Department;

(2) If the program is highly rated, as determined by the Director of Job and Family Services, under the tiered quality rating and improvement system developed under section 5104.30 of the Revised Code, the program

shall comply with the requirements of that system.

(I) Per-pupil funding for programs subject to this section shall be sufficient to provide eligible children with services for a standard early childhood schedule which shall be defined in this section as a minimum of twelve and one-half hours per school week as defined in section 3313.62 of the Revised Code for the minimum school year as defined in sections 3313.48, 3313.481, and 3313.482 of the Revised Code. Nothing in this section shall be construed to prohibit program providers from utilizing other funds to serve eligible children in programs that exceed the twelve and one-half hours per week or that exceed the minimum school year. For any provider for which a standard early childhood education schedule creates a hardship or for which the provider shows evidence that the provider is working in collaboration with a preschool special education program, the provider may submit a waiver to the Department requesting an alternate schedule. If the Department approves a waiver for an alternate schedule that provides services for less time than the standard early childhood education schedule, the Department may reduce the provider's annual allocation proportionately. Under no circumstances shall an annual allocation be increased because of the approval of an alternate schedule.

(J) Each provider shall develop a sliding fee scale based on family incomes and shall charge families who earn more than two hundred per cent of the federal poverty guidelines, as defined in division (A)(3) of section 5101.46 of the Revised Code, for the early childhood education program.

The Department shall conduct an annual survey of each provider to determine whether the provider charges families tuition or fees, the amount families are charged relative to family income levels, and the number of families and students charged tuition and fees for the early childhood program.

(K) If an early childhood education program voluntarily waives its right for funding, or has its funding eliminated for not meeting financial standards or the early learning program standards, the provider shall transfer control of title to property, equipment, and remaining supplies obtained through the program to providers designated by the Department and return any unexpended funds to the Department along with any reports prescribed by the Department. The funding made available from a program that waives its right for funding or has its funding eliminated or reduced may be used by the Department for new grant awards or expansion grants. The Department may award new grants or expansion grants to eligible providers who apply. The eligible providers who apply must do so in accordance with the selection process established by the Department.

(L) Eligible expenditures for the Early Childhood Education Program shall be claimed each fiscal year to help meet the state's TANF maintenance of effort requirement. The Superintendent of Public Instruction and the Director of Job and Family Services shall enter into an interagency agreement to carry out the requirements under this division, which shall include developing reporting guidelines for these expenditures.

(M) The Early Childhood Advisory Council established under section 3301.90 of the Revised Code shall provide, by October 1, 2013, recommendations including, but not limited to, the administration, implementation, and distribution of funding for an early childhood voucher program, to the Superintendent of Public Instruction, the Governor's Office of 21st Century Education, the Speaker of the House of Representatives, the President of the Senate, and the chairpersons of the standing committees of the House of Representatives and the Senate that deal primarily with issues of education. Decisions on the implementation of the voucher program shall be made by the Governor's Office of 21st Century Education with recommendations from the State Superintendent of Public Instruction and the Early Childhood Advisory Council.

(a) First, to eligible students with family incomes at or below one hundred per cent of the federal poverty guidelines.

(b) Second, to other eligible students who qualify under division (A) of this section.
