#### **Bulk purchase of election supplies**

- Permits the Secretary of State to enter into agreements for the bulk purchase of election supplies in order to reduce the costs for those purchases by boards of elections.

### **Use of a voter's full Social Security number instead of last four digits**

- Requires voters who use their Social Security numbers for identification on registration applications, provisional ballot affirmations, absent voter's ballots, and other election documents to provide all nine digits of their Social Security number, instead of the last four digits, as required by current law.<sup>6</sup>
- Specifies that the Social Security number of any elector or any applicant for voter registration is not a public record, and requires the board of elections to redact any such number from any record that it makes available for public inspection or copying.<sup>7</sup>

### **Number of precinct officials at a special election**

### **Process for in-person absent voting**

- Specifies that all of the following apply to the casting of absent voter's ballots in person:<sup>64</sup>
  - The absent voter must provide identification in the same manner as a voter who casts a ballot in person on the day of an election.
  - The absent voter is not required to complete an absent voter's ballot identification envelope.
  - The board of elections must provide a signature book to be signed by absent voters who are casting their ballots in person.
  - If a board of elections employs more than one location for casting absent voter's ballots in person before an election, an electronic pollbook that provides real time access to voting records must be used at each such location.
  - No person other than a precinct election official is to be permitted to challenge the right to vote of an absent voter who is casting a ballot in person. The precinct election officials may challenge such a voter's right to vote in the same manner as a challenge may be made on the day of an election.
  - No absent voter may receive a replacement ballot after the voter's absent voter's ballot has been scanned or entered into automatic tabulating equipment.

### **Unsolicited applications for absent voter's ballots**

### **Entity responsible for sending and receiving absent voter's ballots**

- Requires the board of elections, rather than the director, to deliver absent voter's ballots to voters who request them, and requires those ballots to be returned to the board, rather than the director.<sup>68</sup>

### **Sealing of unsealed envelopes; inserting ballots**

- Requires the board of elections to place voted ballots in the identification envelope and seal it, if the board opens the return envelope and discovers that the ballots are not properly enclosed and sealed in the identification envelope, in the same manner as the board inserts ballots and seals envelopes for uniformed services and overseas voters under existing law.<sup>69</sup>

### **Vote totals for absent voter's ballots**

- Specifies that, if election officials determine that the Statement of Voter of an absent voter's ballot identification envelope has not been signed, the election officials are not to count that ballot. If the election officials are able to determine the identity of the absent voter who returned the unsigned envelope, the election officials must do all of the following:<sup>72</sup>
  - Reinstate that elector's ability to receive and cast a ballot in that election.
  - Remove the notation in the pollbook that indicates that the elector has requested an absent voter's ballot, which notation would otherwise require the elector to cast a provisional ballot on election day.
  - Note on the unsigned envelope that the envelope is unsigned, that the ballot will not be counted, and that the voter's right to cast a ballot was reinstated.
  - Mail a notification to the elector's address on file with the board of the elector's reinstated eligibility to vote, if the ballot is received five or more days before the election.
  - Permit the elector to vote a regular ballot in that election.

### **Use of federal write-in absentee ballot for state and local elections**

- Requires a board of elections to accept and process federal write-in absentee ballots for all federal, state, and local elections conducted in any year.<sup>74</sup>

### **Adoption for use by a board of elections**

- Specifies that, if an electronic pollbook is certified by the Secretary of State, equipment of the same model and make may be adopted for use at elections, as long as it operates in an identical manner.<sup>75</sup>
- Permits a board of elections to adopt the use of any electronic pollbook that has been certified for use in Ohio, instead of using pollbooks or signature poll lists.

### **Consent decrees entered into under the Election Law**

- Specifies that whoever violates this prohibition must be fined at least three times the cost of producing or disseminating the document or paid form of advertising, which amount must be paid to the political subdivision that produced or disseminated the document or paid for the advertising, and also specifies that the person shall be subject to any applicable penalties for any other violations of the Campaign Finance Law that the person may have committed.<sup>79</sup>

### **New political parties**

- Reduces from 1% to ½ of 1% of the total vote for Governor the number of voters who must sign a petition to organize a new political party.

#### **Elimination of obsolete cross-reference in Voter Identification Law**
