## Fiscal Note & Local Impact Statement

---

**Bill:** [H.B. 661 of the 130th G.A.](#)

**Date:** November 18, 2014

**Status:** As Introduced

**Sponsor:** Rep. Stebelton

**Local Impact Statement Procedure Required:** Yes

**Contents:** Increases the compensation for the judiciary, the General Assembly, state and county elected officials, township trustees and fiscal officers, and members of boards of elections, and declares an emergency

### Overview of the Fiscal Note and Accompanying Spreadsheet

This fiscal note summarizes the fiscal effects of the proposed pay raises and cost of living adjustments (COLA) for the state and local elected officials proposed under the bill. More detail concerning these fiscal effects can be found in the spreadsheet document accompanying this Fiscal Note. Within each tab of the spreadsheet, the potential increases listed for each type of official are shown on a year-over-year basis. For county elected officials and members appointed to boards of elections, the tabs within the spreadsheet detail the potential fiscal effects of the proposed salary adjustments on a county-by-county basis, beginning in calendar year (CY) 2015 continuing through CY 2017. Since the pay for township trustees and township fiscal officers is based on township budget size, the tabs for those officials are presented on that basis. The figures in the spreadsheet reflect salary changes only. The calculations do not take into account any potential increases in fringe payroll costs that might occur as a result of these pay adjustments.

## State Fiscal Highlights

- **Increased state costs.** The bill increases the salary for statewide elected officials, members of the General Assembly, and the judiciary beginning January 1, 2015. The state cost for these increases thus span the last half of state FY 2015 and the first half of state FY 2016.
- **Statewide elected executive officers.** The bill reinstates a cost of living adjustments (COLA) based on the lesser of the increase in the Consumer Price Index (CPI) or 3.0% for the Governor, Lt. Governor, Secretary of State, Auditor of State, Treasurer of State, and Attorney General, commencing January 1, 2015 and continuing annually thereafter. Assuming the maximum 3.0% COLA, the state's additional GRF payroll cost for these elected officials would be approximately \$20,000 for CY 2015 and \$20,500 in CY 2016.
- **General Assembly.** The bill provides for a similar annual COLA based on the lesser of the increase in the CPI or 3.0% for members of the General Assembly, also commencing January 1, 2015 and continuing annually thereafter. This would increase GRF payroll costs for the General Assembly by up to approximately \$220,000 for CY 2015. Assuming annual increases of 3.0%, the added GRF payroll cost for the House and Senate for CY 2016 would be just over \$225,000.
- **Judicial salary increases.** The bill increases the annual salaries of the justices and judges of the courts starting with CY 2015, with all of the additional cost to be paid by the state. The year-to-year increases are estimated "up to" amounts as follows: \$5.69 million in 2015, \$7.42 million in 2016, \$8.03 million in 2017, \$8.68 million in 2018, and \$3.45 million in 2019 and annually thereafter. The bill also appropriates \$2,362,994 from the GRF to pay for the increases in judicial salaries and related personal services charges through the end of FY 2015.
- **Pay supplements for county prosecuting attorneys, sheriffs, and court clerks.** The state would incur additional GRF costs to cover pay supplements for county prosecuting attorneys, sheriffs, and common pleas court clerks beginning in CY 2015 and increasing by the lesser of 3.0% or the increase in CPI annually in perpetuity. The state appropriates GRF funding for these pay supplements under the Attorney General's and Judiciary/Supreme Court's budget. In CY 2015, the state could incur added costs of up to approximately \$150,000 to cover these additional expenses. For CY 2016, the added cost could be up to approximately \$160,000.
- **Increased fringe benefit costs.** This Fiscal Note does not take into account the added fringe benefit costs associated with the pay increases proposed under the bill. Fringe payroll costs include the employer's contributions to the Ohio Public Employees Retirement System, Medicare, and other various costs.

## Local Fiscal Highlights

- **County elected officials.** The bill increases the pay for the following county elected officials in CYs 2015 and 2016 and provides for a COLA of the lesser of 3.0% or the CPI in CY 2017 and annually thereafter: (1) auditors, (2) treasurers, (3) sheriffs, (4) common pleas court clerks, (5) recorders, (6) commissioners, (7) prosecuting attorneys, (8) engineers, and (9) coroners. Overall, this could result in increases of up to \$4.8 million in salary costs in CY 2015 and \$4.9 million in CY 2016.
- **County classifications reduced from eight to six in CY 2016.** Salaries for county elected officials are determined by county population. Beginning in CY 2016, the number of county classes is reduced to six by eliminating classes 1 and 2, applicable to counties with the smallest populations. Smaller counties (classes 1 to 3) will incur a more sizeable jump in pay increases in percentage terms for their elected officials than larger counties.
- **Township trustees and township fiscal officers.** The bill increases the pay for township trustees and fiscal officers in CY 2015 and provides for a COLA of the lesser of 3.0% or the CPI in CY 2016 and annually thereafter. This will mean increases of up to \$4.2 million in CY 2015 and \$1.3 million in CY 2016.
- **Township classifications reduced from ten to eight in CY 2015.** Salaries for township trustees and township fiscal officers are determined by a township's budget size. Beginning in CY 2015, the number of budget classifications is reduced to eight by consolidating the first three budget classifications into one.
- **Boards of elections members.** The bill increases the annual compensation for members of county boards of elections by 5.0% in CYs 2015 and 2016, and provides for a COLA of the lesser of 3.0% or the CPI in CY 2017 and annually thereafter. This will mean increases of up to approximately \$215,000 in CY 2015 and just over \$220,000 in CY 2016.
- **Increased fringe benefit costs.** Local governments will incur additional costs to cover fringe benefits as a result of these pay increases. The calculations in this fiscal analysis do not take these added expenses into account.

---

## Detailed Fiscal Analysis

### Overview

This Fiscal Note discusses the impact of the proposed salary adjustments and cost of living adjustments (COLAs) on the state and then local government level for elected officials covered under the bill. Each section provides a summary statement of the estimated maximum additional cost for state or local government, including any particularities that might apply. For each office covered under the bill, the spreadsheet accompanying this fiscal note contains tabs that show current calendar year (CY) 2014 salaries, and the increases that occur in CY 2015 and CY 2016, as well as the potential maximum COLA of 3.0% that would begin with their pay in CY 2017. The increases are shown on a year-over-year basis. Throughout, the calculations assume the maximum possible annual 3.0% COLA, even though the increase in the CPI may well be lower. The analysis also assumes that the local elected officials will start a new term beginning January 1, 2015 which makes them eligible for the increased salaries. In reality, this will not be the case since officials in mid-term are barred from these increases until beginning a new term of office. Finally, the figures included in this analysis are salary only and do not take into account added fringe payroll costs that are likely to occur as a result of these pay adjustments.

### State government

#### Statewide elected officers

Using their base salaries in CY 2014, the bill provides an annual COLA of the lesser of 3.0% or the CPI calculated from the October 1 to September 29 period of the previous year. Assuming a 3.0% increase each calendar year, then the state would incur a potential increase of up to \$19,937 in GRF costs for CY 2015, and an added cost of \$20,535 in CY 2016 to cover these COLAs. However, as with the other COLAs included in the bill, the net fiscal effect will depend on the applicable CPI calculation. The CY 2014 salary for the Governor is \$148,304. The CY 2014 salary of the Lt. Governor is \$78,041, although the Lt. Governor may opt instead to receive the salary of any cabinet position to which he or she is appointed. For the Attorney General, Auditor of State, Secretary of State, their salaries are all \$109,553 in CY 2014.

#### General Assembly

Beginning January 1, 2015, the bill provides an annual COLA for Representatives and Senators based on the lesser of the increase in the CPI or 3.0% of their base salaries in CY 2014. Assuming a 3.0% increase each calendar year, then the state would incur additional GRF costs of up to \$218,658 in CY 2015, and an added cost of \$225,218 in CY 2016 to cover the COLA. The CY 2014 salary for a member of the General Assembly is \$60,583. However, members elected for leadership positions are paid more depending upon the position held. Additionally, General Assembly members who are mid-term at

the beginning of the 131st General Assembly cannot receive salary increases. Thus, the estimated additional payroll costs apply to all members of the House of Representatives and 17 Senators.

### **Judges**

Beginning with CY 2015, the bill increases the annual salaries of the Ohio Supreme Court justices and judges of the courts of appeals, courts of common pleas, municipal courts, and county courts. It raises the salaries in CYs 2015 through 2018 by: (1) 5% over the preceding calendar year, and (2) applies a COLA of no more than 3.0% to the new salary. Starting with CY 2019 and annually thereafter, the bill applies a COLA of no more than 3.0%. The state will pay for all of the increases, as the local shares of judicial salaries will be held at their current levels.

The year-to-year increases in state expenditures are estimated "up to" amounts as follows: \$5.69 million in 2015, \$7.42 million in 2016, \$8.03 million in 2017, \$8.68 million in 2018, and \$3.45 million in 2019. The bill also appropriates \$2,362,994 from the GRF to pay for the increases in judicial salaries and related personal services charges through the end of FY 2015.

### **State pay supplements for county elected officials**

County elected sheriffs, prosecuting attorneys, and common pleas court clerks receive pay supplements from the state. Counties are reimbursed by the state for one-eighth of the county sheriff's salary. The state also reimburses counties with a population under 70,000 for a portion of the county prosecutor's salary if the county prosecutor does not maintain a private practice while holding elected office. However, by law, counties only receive state reimbursement for county sheriffs and prosecutors if adequate funds have been appropriated by the General Assembly. Additionally, the state pays one-eighth of the county-paid compensation for common pleas court clerks also serving as the clerk of the court of appeals. Since the bill increases the salaries of sheriffs, prosecuting attorneys, and clerks of court, the state will incur additional costs for these supplements. In CY 2015, the state could incur additional GRF expenses of up to \$149,400 for these supplements, and an added cost of up to \$159,696 for these supplements in CY 2016. The Attorney General reimburses county sheriffs and prosecutors under the biennial main operating budget act through GRF line item 055411, County Sheriffs' Pay Supplement and GRF line item 055415, County Prosecutors' Pay Supplement in the Attorney General's budget. The Judiciary/Supreme Court reimburses common pleas court clerks through GRF line item 005321, Operating Expenses – Judiciary/Supreme Court.

## **Local government**

### **County elected officials**

In CYs 2015 and 2016, the bill increases the pay for the following county elected officials (1) auditors, (2) treasurers, (3) sheriffs, (4) common pleas court clerk, (5) recorders, (6) commissioners, (7) prosecuting attorneys, (8) engineers, and

(9) coroners. In addition to these salary increases, in CY 2017 and each calendar year thereafter, it reinstates an annual COLA of the lesser of 3.0% or the increase in the CPI calculated from the October 1 to September 29 period of the previous year. In total, this will mean increases of up to \$4.8 million in county costs statewide for CY 2015 and \$4.9 million statewide in CY 2016. (The county fiscal year corresponds to the calendar year.) Additionally, counties could incur an added cost of up to \$2.1 million in CY 2017 to cover the COLA, once again assuming the maximum 3.0% increase. Again, this most likely overstates the impact of the increases since we assume that all officials will receive the higher rates of pay beginning in CY 2015. Because many are mid-term, they will not be eligible for the increases.

**Pay schedules for county elected officials based on population classifications**

Salaries for most county elected officials are based on population classifications established in the Revised Code. Currently, there are eight such classifications. The bill reduces this number to six starting in CY 2016 by consolidating the smaller population classes (Classes 1 to 3) into one larger grouping, as follows. Fiscally, the significance of this change is that smaller counties (those in Classes 1 to 3) will incur a more sizeable jump in pay increases in percentage terms for their elected officials than their larger counterparts when the new population classifications take effect in CY 2016.

<b>Table 1. Population Classifications Used to Determine County Elected Officials' Salaries</b>			
<b>Current</b>		<b>Proposed Under H.B. 661</b>	
<b>Class</b>	<b>Population</b>	<b>Class</b>	<b>Population</b>
1	1-20,000	1	1-55,000
2	20,001-35,000	2	55,001-95,000
3	35,001-55,000	3	95,001-200,000
4	55,001-95,000	4	200,001-400,000
5	95,001-200,000	5	400,001-1,000,000
6	200,001-400,000	6	1,000,001 or more
7	400,001-1,000,000		
8	1,000,001 or more		

**Pay schedules for elected officials with and without private practice**

Although all elected officials are paid salaries according to schedules determined by county population size, in certain cases these schedules differ according to whether these officials work full-time in their capacity as an elected official or maintain outside practices. This is the case for engineers, and prosecuting attorneys. Specifically, those who do not maintain private practices while holding their elected offices receive higher salaries than those who do maintain private practices while in office. However, there is a particular exception for coroners. Under current law, only coroners elected in counties of 175,001 or more have the option to take the higher rate of pay. The calculations in this

Fiscal Note assume that all office holders work exclusively for the county during their terms of office and are thus eligible for the higher salaries. Consequently, the impact of the pay increase provided under the bill will be overstated to a certain degree.

### **Townships**

The bill increases the compensation of township trustees and fiscal officers in CY 2015 and reinstates an annual COLA on salary for CY 2016. Township trustees are paid for each day of service capped at 200 days. Township fiscal officers are paid an annual salary. Assuming that township trustees have a maximum 200 days of service each calendar year, then townships could incur new expenses up to \$4.2 million in CY 2015 and an added cost of \$1.3 million in CY 2016 to cover the COLA (assuming a 3.0% increase).

### **Pay schedules for township trustees and fiscal officers**

Salaries for township trustees and township fiscal officers are based on budget size as set out in the Revised Code. There are 1,308 townships statewide. Currently, there are ten budget classifications that determine township trustees and fiscal officers' salary. The bill reduces this number to eight starting in CY 2015 by consolidating the three smallest budget classifications into one larger grouping, as follows. Fiscally, the significance of this change is that smaller townships will incur a more sizeable jump in pay increases in percentage terms for their elected officials than their larger counterparts when the new population classifications take effect in CY 2015.

<b>Table 2. Budget Classifications Used to Determine Township Trustees and Fiscal Officers' Salaries</b>			
<b>Current Budget Classification</b>		<b>Proposed Under H.B. 661</b>	
1	\$50,000 or less	1	\$250,000 or less
2	\$50,000.01-\$100,000	2	\$250,000.01-\$500,000
3	\$100,000.01-\$250,000	3	\$500,000.01-\$750,000
4	\$250,000.01-\$500,000	4	\$750,000.01-\$1.5 million
5	\$500,000.01-\$750,000	5	\$1,500,000.01-\$3.5 million
6	\$750,000.01-\$1.5 million	6	\$3,500,000.01-\$6.0 million
7	\$1,500,000.01-\$3.5 million	7	\$6,000,000.01-\$10.0 million
8	\$3,500,000.01-\$6.0 million	8	More than \$10.0 million
9	\$6,000,000.01-\$10.0 million		
10	More than \$10.0 million		

We know that there are 1,129 townships in budget classifications of \$100,000 and greater. For the data presented in the spreadsheet accompanying this Fiscal Note, we assumed that the remaining townships (179) are split among the two smallest current budget classifications.

## **Boards of elections**

Annual compensation for members of county boards of elections is based on the population of the county that the member serves. Compensation is scaled up according to each thousand increase in population increments. Currently, a member of a board of elections is paid \$92.89 for each full 1,000 of the first 100,000 in population, \$44.26 for each full 1,000 of the second 100,000 in population, \$24.04 for each full 1,000 of the third 100,000 in population, and \$7.37 for each full 1,000 above 300,000 in population. Additionally, there is a minimum and maximum annual compensation a member can earn. The bill increases a member's annual compensation by 5% over the previous preceding year in CYs 2015 and 2016. In CY 2017, the bill provides an annual COLA of the lesser of 3.0% or the increase in the CPI. The bill also increases the minimum and maximum annual compensation a member can earn. This means that counties may incur new expenses up to \$213,358 in CY 2015 and \$221,493 in CY 2016. Additionally, counties may have an added cost up to \$92,744 in CY 2017 to cover the COLA, assuming the maximum 3.0% increase.
